Subject: TPV - Council Meeting - October 14 - General Plan - El Chorro

Good afternoon Mayor and Town Councilors,

Firstly, may I commend all of you for your time and devotion to our unique Town.

You are all working so hard, on a daily basis, and we all know that you are putting in extra time on discussing the General Plan.

I did tune into the Council meeting on October 14. In particular, on the subject of El Chorro, the concern of numerous residents is that consideration of the General Plan is not the right time and place for discussing this problem. The General Plan is, surely, a vehicle for vision statements which relate to the whole future of the Town and the entire community rather than solving isolated issues.

It does seem that the issue of El Chorro should be handled in the normal fashion i.e. as a modification/amendment to the General Plan... at a later date and without the pressure of any deadlines... and, be more conducive to the right solution.

There is no urgency to solve the El Chorro problem. However, there are looming deadlines and an urgency to discuss all the very important major aspects of the General Plan.

Again, my appreciation for your dedication to our Town. We live in a unique part of the world.

We all need to work, together, to safeguard the integrity and charm of our very special environment.

Best regards

Marel Brady
