Summary and Reconciliation

The subject property has been analyzed using the Direct Sales Comparison. The subject property was valued in terms of sales price per square foot of lot area. The residential lots were considered for date of sale, size, view, corner location and lot sizes.

The valuation considers the current market data, the potential for the subject property and the current supply and demand. The current market factors indicated the upper range of adjusted value per square foot for the subject supported by other sales.

Based on the current market data and current market conditions, the subject property with an area of 1,331 square feet has an estimated market value on a Fee Simple Estate basis as of the valuation date, October 02, 2019 of:

TWENTY TWO THOUSAND DOLLARS
\$ 22,000
