22

23 Section 1. Article II, Definitions, Section 201, is hereby amended as follows (with deletions
24 shown as ~~striketroughs~~ and additions shown in **bold type**):
25

26 Cluster Plan (CP) District: A development approach that may be used in the R-43 or R-35
27 Cluster Plan zoning district that retains the same house per acre ratio as the R-43 or R-35, zoning
28 districts permitting reduced lot sizes in order to allow undeveloped land to be preserved as open
29 space. This approach may be utilized to preserve natural features ~~or~~, **to provide greater than**
30 **normal setbacks from heavily traveled thoroughfares or to allow flexibility in the development**
31 **of parcels on the perimeter of the Town.**
32

Section 2. Article IX, Cluster Plan District, is hereby amended as follows (with deletions shown as ~~striketroughs~~ and additions shown in **bold type**):

Article IX CLUSTER PLAN DISTRICT

Section 901. Purpose:

The purpose of this section is to provide a zoning district as an alternate zoning to R-43 and R-35 single family residential districts, and thereby making provisions for variations in lot sizes within tracts of eight (8) acres or more while maintaining the necessary requirements for open space within each tract as a whole, in order to preserve the natural beauty of the Town of Paradise Valley:

1. A cluster plan may be approved only for the following reasons:

- (a) To preserve areas which have natural features of scenic beauty of significance to the general public.
- (b) To provide greater than normal residential setbacks from heavily traveled thoroughfares without reducing the number of residential lots that might otherwise be created within the provisions of this Ordinance.
- (c) **To allow flexibility for development of parcels on the perimeter of the Town which lack physical access to Town streets and which meet the criteria set forth in the first paragraph of Section 912.**

1 Nothing in this article shall confer upon any applicant a right or claim to have a cluster plan
2 approved as a matter of course. Such approval shall vest in the sound discretion of the Town
3 Planning Commission (hereinafter called Commission), and of the Town Council at a public
4 hearing with due regard to the public safety, health, morals, and welfare of the Town.

5
6 Section 902. Variation in Lot Sizes:

7 The owner of a tract of land in a R-43 or R-35 Residential Zoning District may, upon obtaining
8 the approval of a cluster plan in accordance with the provisions of this Article, vary the lot sizes
9 within the tract of land from those required by the applicable zoning district. Applications for
10 the approval of such cluster plans shall be made in accordance with the provisions of Section
11 908.

12
13 Section 903. Maximum Number of Lots:

14 The maximum number of lots within a tract of land that may be authorized under this Article
15 shall be computed by dividing the “gross acreage” as that term is hereinafter defined, by the
16 maximum lot area requirement of the single family dwelling district in which the lot is located.

17 The term “gross acreage” as used herein, shall include the land within the exterior boundaries of
18 a tract, less the following:

- 19
20 1. The area comprising easements of record for public utilities facilities such as electric
21 transmission lines, sewer lines, and water mains, except in those cases where the owner
22 shall satisfy the Commission that the existence of the easement does not prevent the use
23 of the area comprising the easement for development;

2. An area representing probable street rights of way if the tract were to be developed as a subdivision without regard to the provisions of this Article.

Gross acreage shall not include any portion of the tract, which the owner does not propose to alienate, either as a lot sold to a purchaser, or as common lands conveyed to trustees. The Commission may by rule adopt regulations calculated to insure compliance by the owner with the provisions of the proposed cluster plan pertaining to conveyance of lots and common lands.

Section 904. Inclusion of Common Lands.

Lands shall be set aside from the remainder of the tract for common use by all of the owners of the residential lots, in accordance with the provisions of this section, and such common lands shall be included in the gross acreage for purposes of computing the maximum number of lots authorized under this Article. Except in the case of bridle paths designated as such in the cluster plan, no animals other than domestic pets shall be permitted on common lands. Common lands shall be set aside only for the following uses:

1. Private recreational facilities, such as swimming pools, which are limited to the use of the owners or occupants of the lots located within the tract, or their guests;
2. Parks and parkway areas, and areas which have natural features of scenic beauty worthy of preservation;
3. Bridle paths, golf courses, or hiking trails for the use of the owners of the said lots, or for the use of the general public.

1 Section 905. Conveyance of Common Lands:

2 All common land designated in the plan as such, or whose acreage shall be utilized in the
3 determination of the maximum number of lots that are authorized, shall be conveyed in fee
4 simple by warranty deed from the owner to trustees. A proposed form of trust indenture shall be
5 included in each application for approval of a cluster plan. Such trust indenture shall provide,
6 among other things, that the trustee shall hold title for the sole benefit, use, and enjoyment of the
7 lot owners, present and future, of said subdivision for a term of years certain, which term shall
8 not be less than twenty (20) years. The trust indenture shall further provide that upon the
9 expiration of the said term of years, or upon the cessation of the subdivision, fee simple title to
10 the said land shall be vested in said lot owners as tenants in common. In addition, there shall be
11 included in the plan a proposed form of covenant for inclusion in the deeds to the lots, which
12 covenant shall provide a suitable means for the maintenance and upkeep of the common lands,
13 and shall obligate the lot owner and his successors for a proportionate share of the cost of such
14 upkeep and maintenance. By including the form of such a covenant in the plan, the owner
15 represents and warrants that such a covenant will be included in the original deed to each lot in
16 such a manner as to run with the land and bind succeeding lot owners. The warranty deeds and
17 trust indentures shall be attached as exhibits to the cluster plan together with the opinion of an
18 attorney admitted to practice in Arizona, addressed to the Commission, to the effect that the said
19 deeds and trust indentures comply in form and in substance with the provisions of this
20 Ordinance. The indentures shall be recorded in the office of the Maricopa County Recorder
21 simultaneously with the recording of the final plat of the subdivision, as provided in the
22 subdivision regulations of the Town. Each deed from the owner to a purchaser of a lot, which is
23 subject to the cluster plan, shall include the covenant.

1 Section 906. Minimum Reduced Size of lots:

2 No lot developed under the provisions of this section shall be reduced in area or frontage below
3 the minimum standards set forth in the following table **except as set forth in Section 912:**

4

	Minimum Reduced	Minimum Reduced
<u>Density</u>	<u>Area</u>	<u>Frontage</u>
R-43 (one acre)	20,000 sq. ft.	120 feet
R-35 (35,000 sq. ft.)	20,000 sq. ft.	100 feet

9

10 Section 907. Maintenance of Average Lot Size:

11 Lots developed under this Article may be reduced in area below the minimum lot size required
12 by the residential district zone in which the subdivision is located (but not below the minimum
13 standards set forth in the preceding paragraph) provided that the gross acreage, when divided by
14 the number of lots created, shall equal the minimum lot size required by the applicable district.

16 Section 908. Cluster Plan Procedure:

17 The owner of any tract of land comprising an area of not less than eight (8) acres may submit to
18 the Commission a re-zoning request for a cluster plan for the use and development of all of the
19 said tract of land for residential purposes; the plan shall include all information which the
20 Commission may by rule require, and shall include a request that the entire tract in question be
21 zoned "CP." No cluster plan shall be submitted to the Commission for its approval until a
22 preliminary plat of the tract, which is the subject of the cluster plan, has likewise been submitted,

1 as required by the subdivision regulations of the Town. The preliminary plat shall show in detail
2 each variation from lot size otherwise required which is sought under the proposed cluster plan.

3
4 Every cluster plan submitted under this section shall be considered by the Commission at a
5 public hearing. Such public hearing shall be held only after one publication of a public notice of
6 the time, place and date of such hearing is given in a newspaper of general circulation in the
7 Town of Paradise Valley at least fifteen (15) days prior to such hearing, and after there has been
8 posted on the affected property at least fifteen (15) days prior to the said hearing a notice of the
9 hearing.

10
11 The Commission shall, after such public hearing, submit to the Town Council its
12 recommendation of approval or disapproval of the cluster plan. Approval of a cluster plan shall
13 not be recommended by the Commission until it shall have also approved the preliminary plat for
14 subdivision of the land, which is the subject of the cluster plan in accordance with the
15 subdivision regulations of the Town.

16
17 Upon submission of the Commission's recommendation, the Town Council shall arrange to hold
18 its public hearing to consider whether the cluster plan shall be approved. Like notice for the
19 hearing of the plan before the Town Council shall be given as is the case of the hearing of the
20 plan before the Commission.

1 Section 909. Other Provisions Applicable.

2 If the Town Council shall approve the cluster plan, development in conformity with the plan may
3 be undertaken, even though the location of the buildings to be erected in the area, and the yards
4 and open spaces contemplated by the plan, depart in respect herein above authorized from the
5 district regulations of the district in which the tract is located. Such development of the tract
6 shall be subject to the applicable provisions of the Town subdivision regulations pertaining to the
7 installation of required improvements and submission of the final plat. In the event that the
8 approval of the preliminary plat becomes void by reason of the lapse of time under the provisions
9 of the Town subdivision regulations, the approval of the cluster plan by the Town Council shall
10 likewise become void.

11
12 Land use within any tract zoned “CP” shall be subject to all other applicable provisions of this
13 Ordinance, and of other ordinances of the Town, except as herein expressly otherwise provided.
14 Notwithstanding the fact that a cluster plan may have been approved for lots located in either and
15 R-43 or an R-35 district, which plan permits one or more of said lots to be varied below the
16 minimum area regulation applicable to the district in which they are located; (a) no guest house
17 shall be permitted on any such lot which does not meet the minimum area regulations applicable
18 to the district in which it is located, without regard to the provisions of this article **except as set**
19 **forth in Section 912;** (b) no horses shall be kept on a lot located in an R-43 district unless such
20 lot meets the minimum area regulations applicable to the district without regard to the provisions
21 of this article.

1 Section 910. Variance and Re-Zoning.

2 No variance from a plan approved under the provisions of this article shall be granted by the
3 Board of Adjustment of the Town. No application for re-zoning of all or any portion of a tract
4 zoned “CP” shall be entertained. All land designated as common land in the cluster plan finally
5 approved by the Town Council shall be used for no other purpose than a common land.

6
7 Section 911. Rescission of Cluster Plan Approval:

8 The owner of a tract of land for which a cluster plan has been approved may apply to the
9 Commission and to the Town Council, in accordance with the procedure set forth in Section 908
10 of this article, to rescind the approval of the cluster plan. If the Commission and the Town
11 Council shall be satisfied that the land use of the tract is consistent with, or will be substantially
12 restored to, the use required by the zoning in effect on the tract at the time the cluster plan was
13 approved, they may approve the application for rescission. In the event of such approval, the use
14 of the land within the tract shall be governed by the provisions applicable to the district in which
15 the tract is located as of the date the cluster plan was approved.

16
17 **Section 912. Cluster Plan Adjacent to Major Arterial Streets and Floodways:**

18 **The provisions of this Section 912 shall apply only to parcels of eight (8) acres or more that**
19 **meet the following criteria: (1) the parcel is adjacent to a major arterial roadway with**
20 **average daily traffic greater than 35,000 vehicles per day, (2) the parcel is adjacent to the**
21 **Indian Bend Wash; and, (3) the parcel is not adjacent to an R-43 district.**

For parcels that meet the criteria of the preceding paragraph, and notwithstanding any other provision in this Ordinance to the contrary, the following shall apply:

1. The minimum lot size shall be 16,500 square feet.
2. The maximum number of stories shall be one.
3. The minimum lot frontage shall be 100 feet.
4. Side yard setbacks with street frontage and front yard setbacks for primary buildings shall be 20 feet.
5. Rear yard setbacks for primary buildings shall be 25 feet.
6. Side yard setbacks with no street frontage for primary buildings shall be 7 feet.
7. The maximum floor area ratio shall not exceed 50%.
8. Rear yard setbacks (with or without street frontage) for accessory buildings and structures and pools shall be 10 feet. Front yard setbacks for accessory buildings and structures and pools shall be 20 feet.
9. Side yard setbacks (with or without street frontage) for accessory buildings and structures and pools shall be 7 feet. The maximum height of accessory buildings and structures shall be 16 feet.
10. Front yard setbacks for garage structures that do not have a garage door facing the street shall be 10 feet, provided that for all square footage of any such garage between the 10 foot and 20 foot front yard setback there shall be at least an equal amount of square footage behind the 20 foot setback that shall not be enclosed.

11. The height of structures shall be measured as the vertical distance from the
Regulatory Flood Elevation, as defined in Section 5-11-1 of the Town Code, adjacent
to the parcel.

SECTION 3. Severability. If any section, subsection, sentence, clause, phrase, or portion of
this ordinance or any part of these amendments to the Town Code adopted herein by reference is
for any reason held to be invalid or unconstitutional by the decision of any court of competent
jurisdiction, such decision shall not affect the validity of the remaining portions thereof.

SECTION 4. Effective Date. This ordinance shall become effective when (a) the final plat for
“The Villas at Cheney Estates” subdivision has been approved by the Town Council and
recorded with the Maricopa County Recorder’s Office and (b) the owner of the Property has
provided to the Town a duly executed Proposition 207 waiver in the form attached as Exhibit B,
which Proposition 207 waiver need not be submitted to the Town until after the final plat for
“The Villas at Cheney Estates” subdivision has been approved by the Town Council. The final
plat for “The Villas at Cheney Estates” subdivision and the Proposition 207 waiver shall be
recorded at the same time.
