Good afternoon Paul,

I researched from 1/1/2023 to 5/14/2026 and there were zero violations and only two construction noise CFS which both were determined not to be a violation. Let me know if you have any questions.

01/27/2026 @ 0631- Construction Noise Complaint- RP stated semi-truck was unloading large items. Officers checked the area and no noise coming from either side of the resort.

10/30/2024 @ 0647- Construction Noise Complaint- RP in room 4211 stated people working on the roof at 0630. Spoke with front desk and noise was coming from 5225 N Scottsdale Rd (Scottsdale Jurisdiction.) Officers let them know they needed to contact SPD and it was not in PV's jurisdiction.

Thank you,

Andrea Ford
