3.2.11.10. **First Aid Kit.** Job Order Contractor shall provide and maintain on the jobsite, at all times when Work is in progress, a completely stocked first aid kit which contains all standard emergency medical supplies.

3.2.11.11. **Fire Extinguisher.** Job Order Contractor shall provide and maintain on the jobsite, at all times when Work is in progress, a fully charged fire extinguisher appropriate for the potential fire hazard.

3.2.12. **Dissemination of Contract Information.** Job Order Contractor shall not publish, permit to be published, or distribute for public consumption, any information, oral or written, concerning this Contract, any Job Order or the Work performed under this Contract, without the prior consent of Owner.

3.2.13. **Shop Drawings.** Job Order Contractor's duties under this Contract include the preparation of shop drawings or sketches necessary to permit orderly construction of Owner's design plans. Job Order Contractor agrees to provide detailed design drawings and plans if requested by Owner.

3.2.14. **Jobsite Drawings and Specifications.** Job Order Contractor shall keep on the Work site a copy of the drawings and specifications and shall at all times give Owner access thereto.

3.3. **Owner Rights and Obligations.**

3.3.1. **Suspension of Work.**

3.3.1.1. **Owner's Written Order.** Owner may order Job Order Contractor, in writing, to suspend, delay, or interrupt all or any part of the Work for a period of time that Owner determines reasonably appropriate.

3.3.1.2. **Work Delay or Suspension.** If the performance of all or any part of the Work is suspended, delayed, or interrupted by an act of Owner in the administration of a Job Order, or by Owner's failure to act within the time specified in the Job Order, an adjustment shall be made for any increase in the cost of performance of the Job Order necessarily caused by the suspension, delay, or interruption, and the Job Order will be modified in writing accordingly.

3.3.1.3. **Job Order Contractor Costs.** A claim under this Subparagraph 3.3.1 shall not be allowed for any costs incurred more than thirty (30) calendar days before Job Order Contractor shall have notified Owner in writing of the act or failure to act (but this requirement shall not apply as to a claim resulting from a suspension order), and unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of such suspension, delay, or interruption, but not later than the date of final payment under the Job Order.

3.3.2. **Owner's Right to Possession.** Owner shall have the right to take possession of or use any completed or partially completed part of the Work. Before taking possession of or using any Work, Owner shall furnish Job Order Contractor a list of items of work remaining to be performed or corrected on those portions of the Work that Owner intends to take possession of or use. However, failure of Owner to list any item of Work shall not relieve Job Order Contractor of responsibility for complying with the terms of this Contract. Owner possession or use shall not be deemed an acceptance of any Work under this Contract.

3.3.2.1. **Owner's Possession or Use.** While Owner has such possession or use, Job Order Contractor shall be relieved of the responsibility for the loss of or damage to the Work resulting from Owner's possession or use, notwithstanding the terms of Subparagraph 3.2.1. If prior possession or use by Owner delays the progress of the Work or causes additional expense to Job Order Contractor, an equitable adjustment shall be made in the Job Order price or the period of performance, and the Job Order shall be modified in writing accordingly.

3.3.3. **Other Contracts.** Owner may undertake or award other Contracts for additional work at or near the site of Work under this Contract. Job Order Contractor shall fully cooperate with the other Job Order Contractors and with Owner's employees and shall carefully adapt scheduling and performing the Work under this Contract to accommodate the additional work, heeding any direction that may be provided by Owner. Job Order Contractor shall not commit or permit any act that will interfere with the performance of its Work by any other contractor or by Owner's employees.

3.4. Job Order Amendment. Job Orders may be amended by Owner in the same manner as they are issued.

3.5. Job Order Value. The maximum Job Order value is Three Million Dollars (\$3,000,000), except as provided by § 16.32.1.

4. JOB ORDER DOCUMENTS

4.1. Specification and Drawings. Anything mentioned in the specifications and not shown on the drawings, or shown on the drawings and not mentioned in the specifications, shall be of like effect as if shown or mentioned in both. In case of differences between drawings and specifications, the drawings shall govern. In case of discrepancy either in the figures, in the drawings, or in the specifications, the matter shall be promptly submitted to Owner, who shall promptly make a determination in writing. Any adjustment by Job Order Contractor without such a determination shall be at its own risk and expense. Owner shall furnish from time to time such detail drawings and other information as considered necessary, unless otherwise provided.

4.1.1. Wherever in the specifications or upon the drawings the words "directed," "required," "ordered," "designated," "prescribed," or words of like import are used, it shall be understood that the "direction," "requirement," "order," "designation," or "prescription," of Owner is intended and similarly the words "approved," "acceptable," "satisfactory," or words of like import shall mean "approved by," or "acceptable to," or "satisfactory to" Owner, unless otherwise expressly stated.

4.1.2. Where "as shown," "as indicated," "as detailed," or words of similar import are used, it shall be understood that the reference is made to the drawings accompanying the Contract unless stated otherwise. The word "provided" as used herein shall be understood to mean "provide complete in place," that is "furnished and installed."

4.2. Shop Drawings. Shop drawings include sketches, diagrams, layouts, schematics, descriptive literature, illustrations, schedules, performance and test data, and similar materials furnished by Job Order Contractor to explain in detail specific portions of the Work. Owner may duplicate, use, and disclose in any manner and for any purpose shop drawings delivered under the Contract. Shop drawings means drawings submitted to Owner by Job Order Contractor showing in detail:

4.2.1. The proposed fabrication and assembly of structural elements and,

4.2.2. The installation (i.e., form, fit and attachment details) of materials or equipment.

4.2.3. The construction and detailing of elements of the Work.

4.3. Shop Drawing Coordination. Job Order Contractor shall coordinate all shop drawings, and review them for accuracy, completeness, and compliance with Contract requirements and shall indicate its approval thereon as evidence of such coordination and review. Shop drawings submitted to Owner without evidence of Job Order Contractor's approval may be returned for resubmission. Owner will indicate its approval or disapproval of the shop drawings and if not approved as submitted shall indicate Owner's reasons therefore. Any work done before such approval shall be at Job Order Contractor's risk. Approval by Owner shall not relieve Job Order Contractor from responsibility for any errors or omissions in such drawings, nor from responsibility for complying with the requirements of the Contract, except with respect to variations described and approved in accordance with § 4.4 below.

4.4. Shop Drawing Modifications. If shop drawings show variations from the Job Order requirements, Job Order Contractor shall describe such variations in writing, separate from the drawings, at the time of submission. If Owner approves any such variation, Owner shall issue an appropriate Contract modification, except that, if the variation is minor and does not involve a change in price or in time of performance, a modification need not be issued.

4.5. Shop Drawing Omissions. Omissions from the drawings or specifications or the mis-description of details of work which are manifestly necessary to carry out the intent of the drawings and specifications, or which are customarily performed, shall not relieve Job Order Contractor from performing such omitted or mis-described details of the Work but they shall be performed as if fully and correctly set forth and described in the drawings and specifications.

4.6. Owner Furnished Drawings. Job Order Contractor shall check all Owner furnished drawings immediately upon receipt and shall promptly notify Owner of any discrepancies. Any errors or omissions in Owner furnished drawings are the responsibility of the Owner to rectify, including associated costs. Figures marked on drawings shall be followed in preference to scale measurements. Large scale drawings shall govern small scale drawings. Job Order Contractor shall compare all drawings and verify the figures before laying out the Work and will be responsible for any errors which might have been avoided thereby.

4.7. Shop Drawing Submittal. Job Order Contractor shall submit to Owner for approval an appropriate number of copies of all shop drawings as called for under the various headings of these specifications. Sets of all shop drawings will be retained by Owner and one set will be returned to Job Order Contractor with annotation of approval or rejection within one (1) week after submission, unless a longer review period is necessary by mutual agreement between Owner and Job Order Contractor.

4.8. Use of Job Order Documents. All drawings (to include as-built drawings), sketches, designs, design data, specifications, note books, technical and scientific data provided to Job Order Contractor or developed by Job Order Contractor pursuant to the Contract and all photographs, negatives, reports, findings, recommendations, data and memoranda of every description relating thereto, as well as all copies of the foregoing relating to the Work or any part thereof, shall be the property of Owner and may be used by Owner without any claim by Job Order Contractor for additional compensation, unless such material developed by Job Order Contractor does not result in an issued Job Order. In such cases, Job Order Contractor will receive reasonable reimbursement for the development of such materials before Owner uses them in any manner whatsoever. In addition, Owner agrees to hold Job Order Contractor harmless to the extent permitted by law from any legal liability arising out of the Owner's use of such materials.

5. MATERIAL AND WORKMANSHIP

5.1. Suitability of Material and Equipment. All equipment, material, and articles incorporated in the Work covered by this Contract shall be new and of the most suitable grade for the purpose intended, unless otherwise specifically provided in the Contract. References in the specifications to equipment, material, article, or patented process by trade name, make, or catalog number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition. Job Order Contractor may, at its option, use any equipment, material, article, or process that, in the sole judgment and prior written approval of the Owner, is equal to that named in the specifications.

5.2. Owner Approval. Job Order Contractor shall obtain Owner's approval of the equipment to be incorporated into the Work. When requesting approval, Job Order Contractor shall furnish to Owner the name of the manufacturer, the model number, and other information concerning the performance, capacity, nature, and rating of the equipment. When required by the Contract or by Owner, Job Order Contractor shall also obtain Owner's approval of the material or articles which Job Order Contractor contemplates incorporating into the Work. When requesting approval, Job Order Contractor shall provide full information concerning the material or articles. When directed to do so, Job Order Contractor shall submit samples for approval. Machinery, equipment, material and articles that do not have the required approval shall be installed or used at the risk of subsequent rejection.

5.3. Testing of Materials. Unless otherwise specified in a Job Order, the Job Order Contractor shall be responsible for any required testing of materials prior to incorporation into the Work. Reimbursement for testing required by third party entities will be included in the individual Job Order.

5.4. Workmanship. All work under the Contract shall be performed in a skillful and workmanlike manner.

6. SITE CONDITIONS

6.1. Site Investigation. Job Order Contractor acknowledges that it has taken steps reasonably necessary to ascertain the nature and location of the Work, and that it has investigated and satisfied itself as to the general and local conditions which can affect the Work or its cost, including but not limited to:

6.1.1. Conditions bearing upon transportation, disposal, handling, and storage of materials;

6.1.2. The availability of labor, water, electric power, and roads;

6.1.3. Uncertainties of weather, river stages, tides, or similar physical conditions at the site;

6.1.4. The visible conformation and conditions of the ground; and

6.1.5. The character of equipment and facilities needed preliminary to and during work performance.

6.2. Surface and Subsurface Investigation. Job Order Contractor also acknowledges that it has satisfied itself as to the character, quality, and quantity of surface and subsurface materials or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the site, including all exploratory work done by Owner, as well as from the drawings and specifications made a part of this Contract. Owner will provide to Job Order Contractor all subsurface investigation reports it has commissioned, and has knowledge of, that reasonably reflect expected conditions at the location of the Job Order.

6.3. Differing Site Conditions. Job Order Contractor shall promptly, and before the conditions are disturbed, give a written notice to Owner of:

6.3.1. Subsurface or latent physical conditions at the site which differ materially from those indicated in the Contract, or

6.3.2. Unknown physical conditions at the site, of an unusual nature, which differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract.

6.4. Owner Investigation. Owner shall investigate the site conditions promptly after receiving the notice. If the conditions do materially so differ and cause an increase or decrease in Job Order Contractor's cost of, or the time required for, performing any part of the Work, whether or not changed as a result of the conditions, an equitable adjustment shall be made and the Job Order modified in writing accordingly.

6.5. Written Notice of Differing Site Conditions. No request by Job Order Contractor for an equitable adjustment to a Job Order under this § 6 shall be allowed, unless Job Order Contractor has given the written notice required.

6.6. Payment Adjustment. No request by Job Order Contractor for an equitable adjustment to a Job Order for differing site conditions shall be allowed if made after final payment under such Job Order.

7. JOB ORDER SCHEDULES

7.1. Construction Schedule. If the Job Order Contractor fails to submit a schedule with the Job Order, Owner may withhold approval of progress payments until Job Order Contractor submits the required schedule. If required, the Job Order Contractor will submit for approval with the signed Job Order a practicable schedule showing the sequence in which Job Order Contractor proposes to perform the Work, and the dates on which Job Order Contractor contemplates starting and completing the several salient features of the Work (including acquiring materials, plant and equipment). The schedule may be a formal computerized schedule or a progress chart in a bar chart format of suitable scale to indicate appropriately the percentage of Work scheduled for completion by any given date during the period. In either case, the basic information should be the same and the schedule or chart must contain as a minimum:

7.1.1. A detailed list of work activities or work elements.

7.1.2. Show the logical dependencies (ties) to indicate what Work must be accomplished before other Work can begin.

7.1.3. Show early start and early finish dates along with late start and late finish dates for each work activity or work element.

7.2. Failure to Submit Schedule. Failure of Job Order Contractor to comply with the requirements of Owner under this clause shall be grounds for a determination by Owner that Job Order Contractor is not prosecuting the Work with sufficient diligence to ensure completion within the time specified in the Job Order. Upon making this determination, Owner may terminate Job Order Contractor's right to proceed with the Work if not cured within seven (7) days after written notice is provided, or any separable part of it, in accordance with § 14.

7.3. Progress Report. Job Order Contractor shall submit a progress report every thirty (30) days, or as directed by Owner, and upon doing so shall immediately deliver a current schedule to Owner if it has materially changed since the last submission of a schedule. If Job Order Contractor falls behind the approved schedule, Job Order Contractor shall take steps necessary to improve its progress, including those that may be reasonably required by Owner. Without additional cost to Owner, Owner may require Job Order Contractor to increase the number of shifts, overtime operations, days of work, and/or the amount of construction plant or equipment, and to submit for approval any supplementary schedule or schedules in chart form as Owner deems necessary to demonstrate how the approved rate of progress will be regained.

7.4. Emergency Work. Job Order Contractor will give top priority to any emergency Work Owner may have and will allocate all resources necessary to accomplish such Work in accordance with Owner's schedule requirements. To the extent the Job Order Contractor incurs additional cost, expense or schedule delay in performing Owner's emergency Work, Owner will equitably adjust the Contract in accordance with § 10.

8. INSPECTION OF CONSTRUCTION AND ACCEPTANCE

8.1. Job Order Contractor Inspection System. Job Order Contractor shall maintain an adequate inspection system and perform such inspections as will ensure that the Work called for conforms to Job Order requirements. Job Order Contractor shall maintain complete inspection records and make them available to Owner. All work shall be conducted under the general direction of Owner and is subject to inspection and test by Owner at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of the Contract.

8.2. Owner Inspections and Tests. Owner inspections and tests are for the sole benefit of Owner and do not:

8.2.1. Relieve Job Order Contractor of responsibility for providing adequate quality control measures;

8.2.2. Relieve Job Order Contractor of responsibility for damage to or loss of the material before acceptance;

8.2.3. Constitute or imply acceptance; or

8.2.4. Affect the continuing rights of Owner after acceptance of the complete work.

8.3. Job Order Contractor Responsibilities. The presence or absence of an inspector does not relieve Job Order Contractor from any Contract requirement, nor is the inspector authorized to change any term or condition of the specification without Owner's written authorization.

8.4. Job Order Contractor Performance. Job Order Contractor shall promptly furnish, without additional charge, all facilities, labor, and material reasonably needed for performing such safe and convenient inspections and tests as may be required by Owner. Owner may charge to Job Order Contractor any additional cost of inspection or test when Work is not ready at the time specified by Job Order Contractor for inspection or test, or when prior rejection makes re-inspection or retest necessary. Owner shall perform all inspections and tests in a manner that will not unnecessarily delay the Work. Special, full size and performance tests shall be performed as described in the Job Order.

8.5. Job Order Contractor Corrective Work. Job Order Contractor shall, without charge, replace or correct Work found by Owner not to conform to Job Order requirements, unless Owner consents to accept the Work with an appropriate adjustment in Contract price. Job Order Contractor shall promptly segregate and remove rejected material from the premises.

8.6. Failure to Replace or Correct Work. If Job Order Contractor does not promptly replace or correct rejected Work, Owner may:

8.6.1. By Contract or otherwise, replace or correct the Work and charge the cost to Job Order Contractor;

or

8.6.2. Terminate for default Job Order Contractor's right to proceed.

8.7. Owner Inspection before Acceptance. If, before acceptance of the entire Work, Owner decides to examine already completed Work by removing it or tearing it out, Job Order Contractor, on request, shall promptly furnish

all necessary facilities, labor, and material. If the Work is found to be defective or nonconforming in any material respect due to the fault of Job Order Contractor or its subcontractors, Job Order Contractor shall bear the expenses of the examination and of satisfactory reconstruction. However, if the Work is found to meet requirements, Owner shall make an equitable adjustment for the additional services involved in the examination and reconstruction, including, if completion of the Work was thereby delayed, an extension of the period of time for performance.

8.8. Owner Acceptance. Unless otherwise specified in the Job Order, Owner shall accept, as promptly as practicable after completion and inspection, all work required by the Job Order or that portion of the Work that the Owner determines can be accepted separately. Acceptance shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or Owner's rights under any warranty or guarantee.

9. INVOICING AND PAYMENT

9.1. Compensation. As full consideration for the satisfactory performance by Job Order Contractor of Work prescribed under the Contract, Owner shall pay Job Order Contractor the amounts specified in the individual Job Orders.

9.2. Invoices. Job Order Contractor shall submit invoices to the following address:

City of Peoria
8401 W. Monroe St
Peoria, AZ 85345

9.3. Job Order Cost Proposal Structure. For each Job Order, the Job Order Contractor shall prepare a Job Order Cost Proposal with the sufficient level of cost detail as required by the Owner. Cost detail may include, but is not limited to: schedule of values, work schedule, direct labor cost and fringe benefits, direct material costs (supported by quotes), direct equipment costs (supported by quotes), cost of subcontractors (supported by quotes) and allowable indirect costs (includes insurance). The contractor shall utilize the markups established in the JOC Pricing Matrix (*Attachment C*) to calculate the overhead and profit for all Job Order Cost Proposals, unless otherwise requested by the Owner.

9.4. Progress Payments. Owner shall make progress payments monthly as the Work proceeds, or at more frequent intervals as determined by Owner, on estimates of Work completed submitted by the Job Order Contractor and approved by Owner. Job Order Contractor shall use an acceptable invoice form and shall include supporting documents to reflect a breakdown of the total price showing the amount included therein for each principal category of the Work, in such detail as requested, to provide a basis for determining progress payments. In the estimation of Work completed, Owner will authorize payment for material delivered on the site and preparatory work done if Job Order Contractor furnishes satisfactory evidence that it has acquired title to such material and that the material will be used to perform the Work.

9.5. Retention. Not applicable.

9.6. Owner's Property. All material and work covered by progress payments made shall, at the time of payment, become the sole property of Owner, but this provision shall not be construed as:

9.6.1. Relieving Job Order Contractor from the sole responsibility for all material and Work upon which payments have been made or the restoration of any damaged Work; or

9.6.2. Waiving the right of Owner to require the fulfillment of all of the terms of the Contract.

9.7. Approval and Certification. An estimate of the Work submitted shall be deemed approved and certified for payment after seven days from the date of submission unless before that time the Owner or Owner's agent prepares and issues a specific written finding setting forth those items in detail in the estimate of the Work that are not approved for payment under this contract. The Owner may withhold an amount from the progress payment sufficient to pay the expenses the Owner reasonably expects to incur in correcting the deficiency set forth in the written finding. The progress payments shall be paid on or before fourteen days after the estimate of the Work is certified and approved. The estimate of the Work shall be deemed received by the Owner on submission to any person designated by the Owner for the submission, review or approval of the estimate of the Work.

9.8. Unpaid Amounts. Owner shall pay all unpaid amounts due Job Order Contractor under this Contract within thirty (30) days, after:

9.8.1. Completion and acceptance of the Work;

9.8.2. Presentation of a properly executed invoice;

9.8.3. Presentation of release of all claims against Owner arising by virtue of the Contract, other than claims, in stated amounts, that Job Order Contractor has specifically excepted from the operation of the release. A release may also be required of the assignee if Job Order Contractor's claim to amounts payable under this Contract has been assigned. Job Order Contractor shall complete a Job Order Contractor's release form acceptable to Owner; or

9.8.4. Consent of Job Order Contractor's surety, if any.

10. CHANGES

10.1. Owner Changes. Owner may, at any time, without notice to the sureties, if any, by written order designated or indicated to be a change order, make changes in the Work within the general scope of the Job Orders, including changes:

10.1.1. In the specifications (including drawings and designs);

10.1.2. In Owner-furnished facilities, equipment, materials, services, or site; or

10.1.3. Directing acceleration in the performance of the Work, or otherwise altering the schedule for performance of the Work.

10.2. Owner Change Orders. Any other written order (which, as used in this paragraph, includes direction, instruction, interpretation, or determination) from Owner that causes a change shall be treated as a change order under this § 10; provided, that Job Order Contractor gives Owner timely written notice stating the date, circumstances, and source of the order and that Job Order Contractor regards the order as a change order.

10.3. Contract Adjustments. Except as provided in this § 10, no order, statement, or conduct of Owner shall be treated as a change under this § 10 or entitle Job Order Contractor to an equitable adjustment hereunder.

10.4. Modification of the Job Order. If any change under this § 10 causes an increase or decrease in Job Order Contractor's cost of, or the time required for, the performance of any part of the Work under a Job Order, whether or not changed by any such order, Owner shall negotiate an equitable adjustment and modify the Job Order in writing.

10.5. Job Order Contractor Proposal. Job Order Contractor must submit any proposal under this § 10 within thirty (30) calendar days after:

10.5.1. Receipt of a written change order under § 10.1 above; or

10.5.2. The furnishing of a written notice under § 10.2 above by submitting to Owner a written statement describing the general nature and amount of the proposal, unless this period is extended by Owner. The statement of proposal for adjustment may be included in the notice under § 10.2 above.

10.6. Final Payment Limitation. No proposal by Job Order Contractor for an equitable adjustment shall be allowed if asserted after final payment under the Job Order.

10.7. Job Order Contractor Extension Justification. Job Order Contractor shall furnish to the Owner a written proposal for any proposed extension in the period of performance. The proposal shall contain a price breakdown and period of performance extension justification.

10.8. Job Order Contractor Price Breakdown Structure. Job Order Contractor, in connection with any proposal it makes for a Job Order change shall furnish a price breakdown itemized as required by Owner and the pricing matrix as required in the awarded contract.

Such Builders' Risk insurance shall be maintained until final payment has been made or until no person or entity other than the City has an insurable interest in the property required to be covered, whichever is earlier. This Builder's Risk policy must be a "Masters" Policy, that is, one in which only the specific job order project is insured. This insurance shall include interests of the City, the Contractor, and all Subcontractors and Sub-Subcontractors in the work during the life of the Contract and course of construction, and shall continue until the work is completed and accepted by the City. For new construction projects, the Contractor agrees to assume full responsibility for loss or damage to the work being performed and to the buildings under construction. The policy will provide coverage while the covered premises or any part thereof are occupied. Builders' Risk insurance shall be primary and not contributory.

If the Contract requires testing of equipment or other similar operations, at the option of the City, the Contractor will be responsible for providing property insurance for these exposures under a Boiler Machinery insurance policy.

Required coverages may be waived or modified on a per-project basis by specifying in the Individual Job Order Scope of Work.

11.2. Owner as Additional Insured. The policies providing Commercial General Liability and Automobile Liability insurance as required in § *11.1* shall be endorsed to name Owner as Additional Insured. 16.26. Cost of Bid/Proposal Preparation. The Owner shall not reimburse the cost of developing presenting or providing any response to this solicitation. Offers submitted for consideration should be prepared simply and economically, providing adequate information in a straightforward and concise manner.

16.27. Public Records. All offers submitted in response to this solicitation shall become the property of the City and shall become a matter of public record available for review, subsequent to the award notification, in accordance with the City's Procurement Code. However, subsequent to the award of the contract, any information and documents obtained by the City during the course of an audit conducted in accordance with Paragraph 16.17 above for the purpose of determining compliance by Contractor or a Subcontractor with the Contractor Immigration Warranty mandated by Paragraph 16.4 above shall remain confidential and shall not be made available for public

review or produced in response to a public records request, unless the City is ordered or otherwise directed to do so by a court of competent jurisdiction.

16.28. Advertising. Job Order Contractor shall not advertise or publish information concerning this Contract, without prior written consent of the Owner.

16.29. Delivery Orders. The Owner shall issue a Purchase Order for the material and/or services covered by this contract. All such documents shall reference the contract number as indicated on the signature page of the contract

16.30. Funding. Any contract entered into by the Owner of Peoria is subject to funding availability. Fiscal years for the Owner of Peoria are July 1 to June 30. The Owner Council approves all budget requests. If a specific funding request is not approved, the contract shall be terminated.

16.31. Federal Funding. It is the responsibility of the Contractor to determine on any single job order project if federal wage rates will apply. It is also the responsibility of the Contractor to incorporate any necessary amounts in the bid to accommodate for required federal record keeping and necessary pay structures. The Contractor should contact the City of Peoria regarding any applicable Davis Bacon wage rates.

16.31.1 Davis-Bacon Act - (40 U.S.C. §276a-276a-5). All contracts or subsequent subcontracts for construction, alteration, renovation, or repair, including painting and decorating, of a public building or public work, or building or work, financed by federal funds which meets the \$2,000 threshold are required to pay the federal prevailing wage rate for each class of laborer or mechanic employed. Regulations applicable to grant-enabling statutes incorporating the Act can be found in 29 Code of Federal Regulations (CFR), Parts 1,3,5 and 7. These regulations stipulate that grant funds appropriated under statutes imposing the Davis-Bacon Act requirements shall not be paid to a grantee (the Department) until contractors or subcontractors performing work under the grant certify that they will comply with the Act's requirements. The Act also applies to any contract or subcontract for similar work on public grants from a federal agency, or where the federal government acts as guarantors of mortgages. The only exception is for the transportation of materials and supplies by persons who are not employed directly at the work site, but are employed solely to make deliveries to the work site.

Provider Agencies must ensure that contracts or subcontracts for any construction/alteration projects contain the wage determinations issued and that the appropriate clauses required by the Davis-Bacon regulations (29 CFR, section 5.5) are present. It should be made clear in any announcements of projects or RFPs that federal grant funds are being used and that Davis-Bacon will apply even if the federal government is not a party to the contract or subcontract. The prevailing wage must be paid regardless of any contractual relationship that may exist between a contractor or a subcontractor. Although the Department is not responsible to review sub-contracts for compliance, it has the right to require a prevailing wage.

Sanctions for post-certification violations include suspension of payment, advances, or guarantees of grant funds, and the forced restitution of wages that should have been paid and the removal of offending contractors or subcontractors from active employment lists.

Failure to comply can bring penalties that can be severe. The contractor or subcontractor and their sureties are liable for any excess costs for completing the work; the Department may withhold accruals to ensure payment of prevailing wages to the workers; the contract or subcontract may be terminated and/or the contractor or subcontractor may be debarred for a period of three years.

16.32. A.R.S. Title 34 Provisions.

16.32.1. The maximum dollar amount of an individual job order shall be Three Million Dollars (\$3,000,000) or such higher or lower amount prescribed by the Owner in an action notice pursuant to A.R.S. title 38, chapter 3, article 3.1 or a rule adopted by the Owner as the maximum amount of an individual job order. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies this requirement.

16.32.2. If the Job Order Contractor subcontracts or intends to subcontract part or all of the work under a job order and if this contract includes descriptions of standard individual tasks, standard unit prices for standard

individual tasks and pricing of job orders based on the number of units of standard individual tasks in the job order, then:

16.32.2.1. The Job Order Contractor has a duty to deliver promptly to each subcontractor invited to bid a coefficient to the Job Order Contractor to do all or part of the work under one or more job orders:

16.32.2.1.1. A copy of the descriptions of all standard individual tasks on which the subcontractor is invited to bid.

16.32.2.1.2. A copy of the standard unit prices for the individual tasks on which the subcontractor is invited to bid.

16.32.2.2. If not previously delivered to the subcontractor, the Job Order Contractor has a duty to deliver promptly the following to each subcontractor invited to or that has agreed to do any of the work included in any job order:

16.32.2.2.1. A copy of the description of each standard individual task that is included in the job order and that the subcontractor is invited to perform.

16.32.2.2.2. The number of units of each standard individual task that is included in the job order and that the subcontractor is invited to perform.

16.32.2.2.3. The standard unit price for each standard individual task that is included in the job order and that the subcontractor is invited to perform.

16.32.3. The Owner will include the full street or physical address of each separate location at which the construction will be performed for each individual Job Order. The Job Order Contractor (and on behalf of each subcontractor at any level) hereby agrees to include in each of its subcontracts the same address information. The Job Order Contractor and each subcontractor at any level shall include in each subcontract the full street or physical address of each separate location at which construction work will be performed.

16.33 Prohibited Lobbying Activities. The Offeror, his/her agent or representative shall not contact, orally or in any written form any City elected official or any City employee other than the Materials Management Division, the procuring department, City Manager, Deputy City Manager or City Attorney's office (for legal issues only) regarding the contents of this solicitation or the solicitation process commencing from receipt of a copy of this request for proposals and ending upon submission of a staff report for placement on a City Council agenda. The Materials Manager shall disqualify an Offeror's proposal for violation of this provision. This provision shall not prohibit an Offeror from petitioning an elected official after submission of a staff report for placement on a City Council agenda or engaging in any other protected first amendment activity after submission of a staff report for placement on a City Council agenda.

16.34 Prohibited Political Contributions. Consultant during the term of this Agreement shall not make a contribution reportable under Title 16, Chapter 6, Article 1, Arizona Revised Statutes to a candidate or candidate committee for any city elective office during the term of this Agreement. The City reserves the right to terminate the Agreement without penalty for any violation of this provision.

16.35 Assurances of Compliance with Federal and State Laws. If any single job order project is funded with federal grant funds, the Contractor shall be responsibility to incorporate any necessary amounts in the job quote to accommodate for required federal record keeping and necessary pay structures. The Contractor should contact the City of Peoria regarding any applicable Davis Bacon wage rates. During the performance of work under this contract the Contractor and all Subcontractors will be required to certify compliance with the following federal provisions:

Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The Contractor will consider each applicant for employment on the basis of his or her qualifications for the job and without regard to race, color, religion, gender, marital status, age, or national origin. Nor will the Contractor

discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified.

Every effort will be made to insure that appointments, promotions, reclassifications, transfers, compensation, training, layoffs, terminations or any other type of personnel actions are based on merit, fitness or other factors determined to be free of discrimination. Such action shall include, but not be limited to the following: employment, promotion, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor further agrees that this clause will be incorporated in all subcontracts with all labor organizations furnishing skilled, unskilled and union labor, or who may perform any such labor or services in connection with this contract. The Contractor further agrees that this clause will be incorporated in all subcontracts or job-consultant Contracts related to this Contract." The County, State and the Agency are beneficiaries of this Section and are entitled to enforce it. (a) Definition. As used in this clause--

"Data Universal Numbering System (DUNS) number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities, which is used as the identification number for Federal Contractors.

"Data Universal Numbering System+4 (DUNS+4) number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at subpart 32.11) for the same concern.

"Registered in the System for Award Management (SAM) database" means that--

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM database;
- (2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM database;
- (3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and
- (4) The Government has marked the record "Active".

"System for Award Management (SAM)" means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes--

- (1) Data collected from prospective Federal awardees required for the conduct of business with the Government;
- (2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and
- (3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

(b) The Contractor is responsible for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis, from the date of initial registration or subsequent updates, its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(c)(1)(i) If a Contractor has legally changed its business name, doing business as name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to--

(A) Change the name in the SAM database;

(B) Comply with the requirements of subpart 42.12 of the FAR; and

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor shall provide with the notification sufficient documentation to support he legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (c)(1)(i) of this clause, or fails to perform the agreement at paragraph (c)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM. (3) The Contractor shall ensure that the DUNS number is maintained with Dun & Bradstreet throughout the life of the contract. The Contractor shall communicate any change to the DUNS number to the Contracting Officer within 30 days after the change, so an appropriate modification can be issued to update the data on the contract. A change in the DUNS number does not necessarily require a novation be accomplished. Dun & Bradstreet may be contacted—

(i) Via the internet at <http://fedgov.dnb.com/webform> or if the Contractor does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

W. Contract Work Hours and Safety Standards Act -- Overtime Compensation.

(a) *Overtime requirements.* No Contractor or subcontractor employing laborers or mechanics (see Federal Acquisition Regulation 22.300) shall require or permit them to work over 40 hours in any workweek unless they are paid at least 1 and 1/2 times the basic rate of pay for each hour worked over 40 hours.

(b) *Violation; liability for unpaid wages; liquidated damages.* The responsible Contractor and subcontractor are liable for unpaid wages if they violate the terms in paragraph (a) of this clause. In addition, the Contractor and subcontractor are liable for liquidated damages payable to the Government. The Contracting Officer will assess liquidated damages at the rate of \$10 per affected employee for each calendar day on which the employer required or permitted the employee to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by the Contract Work Hours and Safety Standards Act.

(c) *Withholding for unpaid wages and liquidated damages.* The Contracting Officer will withhold from payments due under the contract sufficient funds required to satisfy any Contractor or subcontractor liabilities for unpaid wages and liquidated damages. If amounts withheld under the contract are insufficient to satisfy Contractor or subcontractor liabilities, the Contracting Officer will withhold payments from other Federal or Federally assisted contracts held by the same Contractor that are subject to the Contract Work Hours and Safety Standards Act.

(d) *Payrolls and basic records.*

(1) The Contractor and its subcontractors shall maintain payrolls and basic payroll records for all laborers and mechanics working on the contract during the contract and shall make them available to the Government until 3 years after contract completion. The records shall contain the name and address of each employee, social security number, labor classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid. The records need not duplicate those required for construction work by Department of Labor regulations at 29 CFR 5.5(a)(3) implementing the Davis-Bacon Act.

(2) The Contractor and its subcontractors shall allow authorized representatives of the Contracting Officer or the Department of Labor to inspect, copy, or transcribe records maintained under paragraph (d)(1) of this clause. The Contractor or subcontractor also shall allow authorized representatives of the Contracting Officer or Department of Labor to interview employees in the workplace during working hours.

(e) *Subcontracts.* The Contractor shall insert the provisions set forth in paragraphs (a) through (d) of this clause in subcontracts may require or involve the employment of laborers and mechanics and require subcontractors to include these provisions in any such lower-tier subcontracts. The Contractor shall be responsible for compliance by any subcontractor or lower-tier subcontractor with the provisions set forth in paragraphs (a) through (d) of this clause.

SECTION 1 – INTRODUCTION

1.1 Introduction

The City of Peoria Arizona is seeking experienced licensed contractors for general building construction projects of varying sizes and complexities on an as-needed basis at various project locations throughout the City of Peoria utilizing Job Order Contracting (JOC) project delivery method.

The individual job order maximum amount is \$3,000,000. Pricing shall be negotiated fee. It is the intent of the City of Peoria to select two (2) contractors for contract award, each being skilled at projects up to the maximum job order value and capable of multiple concurrent projects. The initial term of the JOC will be for a minimum of one (1) year and may be renewed up to four (4) additional one-year terms. Renewal of the contract will be based on the successful performance of the JOC Contractor and the needs of the City.

During the term of the JOC, work is performed as a series of individual job orders. Individual projects may require the expenditure approval of Peoria City Council. Each job order, initiated by the owner, is defined cooperatively by the owner and contractor. A scope, schedule and price are negotiated and agreed upon. Then the contractor is directed to proceed with the work. Job Order Contractors will be expected to deliver turn-key projects which may include ancillary design, pre-construction services, permit management, competitively bid construction work, and the preparation of project close-out documents.

1.2 Cooperative Purchasing

Any contract resulting from this solicitation shall be for the use of the City of Peoria. In addition, specific eligible political subdivisions and nonprofit educational or public health institutions may also participate at their discretion. In order to participate in any resultant contract, a political subdivision or nonprofit educational or public health institution must have been invited to participate in this specific solicitation and the contractor must be in agreement with the cooperative transaction. In addition to cooperative purchasing, any eligible agency may elect to participate (piggyback) on any resultant contract; the specific eligible political subdivision, nonprofit educational or public health institution and the contractor must be in agreement. Any orders placed to the successful contractor will be placed by the specific agencies participating in this purchase. Payment for purchases made under this agreement will be the sole responsibility of each participating agency. The City shall not be responsible for any disputes arising out of transactions made by others.

1.3 Project Budget

The City of Peoria Capital Improvement Program (CIP) identifies current funding for projects in fiscal year 2019 and shows planned projects for the next ten (10) years. A copy of the CIP can be viewed at <https://www.peoriaaz.gov/government/departments/management-and-budget>. The approved FY2019 budget is available to fund various projects utilizing the awarded JOC

contract. Projects may extend into the next fiscal year and beyond but in no instance will any one project under this JOC exceed \$3,000,000.

SECTION 2 – PROJECT DESCRIPTION & SCOPE OF WORK

2.1 Description

This Job Order Contract is issued to assist the City of Peoria with the design, permitting, and construction of various general building construction projects. General building construction projects may include new building construction, existing building major renovations, existing building tenant improvements, and site improvements directly related to a building project (examples: grading, drainage, underground utilities, hardscape, and landscape). The general building construction JOC may also be utilized for projects where a general contractor can add value by managing primary and secondary scope components associated with building or site technical system upgrades (examples: HVAC system modifications, electrical service modifications, solar system installations, life safety system upgrades, or similar).

The general building construction projects are most likely to occur within occupied buildings or on active multi-building campuses, each requiring appreciable experience in managing construction logistics including occupant and pedestrian safety, construction staging, just-in-time materials delivery, off-hours construction, trade parking, and disciplined construction waste management.

Interested contractors must have the ability to show related experience and a proven track record in delivering successful projects of the same nature and magnitude. The selected contractors will be expected to provide experienced project management to manage projects from the project's initial inception and scoping through regulatory approvals, construction, and project close-out.

The City of Peoria has elected to use the JOC delivery method for these projects as outlined under A.R.S. Title 34. Cost effective construction in the shortest possible timeframe and within the City's tolerance of financial risk will be the guiding principles behind the projects.

2.2 Scope of Work

Interested contractors must possess experience in the following areas:

Permit Management: The attainment of permits from any and all jurisdictions which the project may require, including but not limited to the City of Peoria and Maricopa County.

Construction: The physical construction of the work, through competitive subcontractor selection/bidding and/or self-performance as dictated by the unique needs of each individual project.

Cost Proposals: Upon the request of the owner, project cost proposals may be submitted either

as a lump sum or as a Guaranteed Maximum Price (GMP). GMP cost proposals shall be “open book” with full transparency provided to the Owner and any project allowance savings will be returned to the Owner at the end of the project.

Federal Compliance: Where federal monies are utilized, the scope shall include prevailing wage compliance as per the Davis Bacon Act and submission of weekly certified payroll. The City of Peoria will notify the contractor if federal grants are utilized.

Project Close-Out: The preparation, maintenance, or modification of the Owner’s project close-out documentation including, but not limited to: RLS certified survey as-builts, CAD updates to as-built documents, operations and maintenance manuals, warranty manuals, turnover of certified payroll documentation (federal projects only), City, County, State, or Federal agency special close-out requirements, and maintenance personnel training (if applicable).

Depending on the scale of the projects under this JOC, experience in the following areas may also apply:

Professional Services: The contracting of professional design services from licensed Arizona professionals of one or more of the following disciplines typically associated with general building construction: geotechnical, land survey, environmental, civil, landscape, architecture, structural, plumbing, mechanical, electrical, fire protection, and fire alarm; and/or the contracting of specialty disciplines including: acoustical, kitchen equipment, furnishings, environmental, audio visual, security, or similar. When the professional services are not provided by the Owner, the Contractor may be required to possess Professional Liability Insurance. The single project limit of \$3,000,000 shall be inclusive of professional services fees when acquired under this JOC agreement.

Preconstruction Services: The management of design consultants (when included under the JOC), public engagement, construction cost estimating, constructability review, and value engineering as required to achieve the City’s project budget.

2.3 General Information

The successful JOC contractors will have documented established successful work relationships with various qualified subcontractors, engineering professionals, and a basic knowledge of JOC project delivery methods. The specific work associated with each job order shall be mutually agreed upon and issued by the City.

For any project determined by the City to be appropriate for this Job Order Contract, the City will request that the contractor prepare a scope of work, cost proposal, project schedule and back-up supporting documentation. If acceptable, the City will issue a Job Order, at which time the parties will execute an individual job order specifying the cost and completion schedule for that project. Although the City anticipates that the JOC Contractor will be issued work, the Contractor is neither guaranteed a minimum amount of work nor any jobs at all. The

TAB A | Method of Approach

1. Describe your company's experience and approach to scoping and estimating potential job order projects. What efforts would your company initiate to achieve the project budget and schedule during the negotiation process.

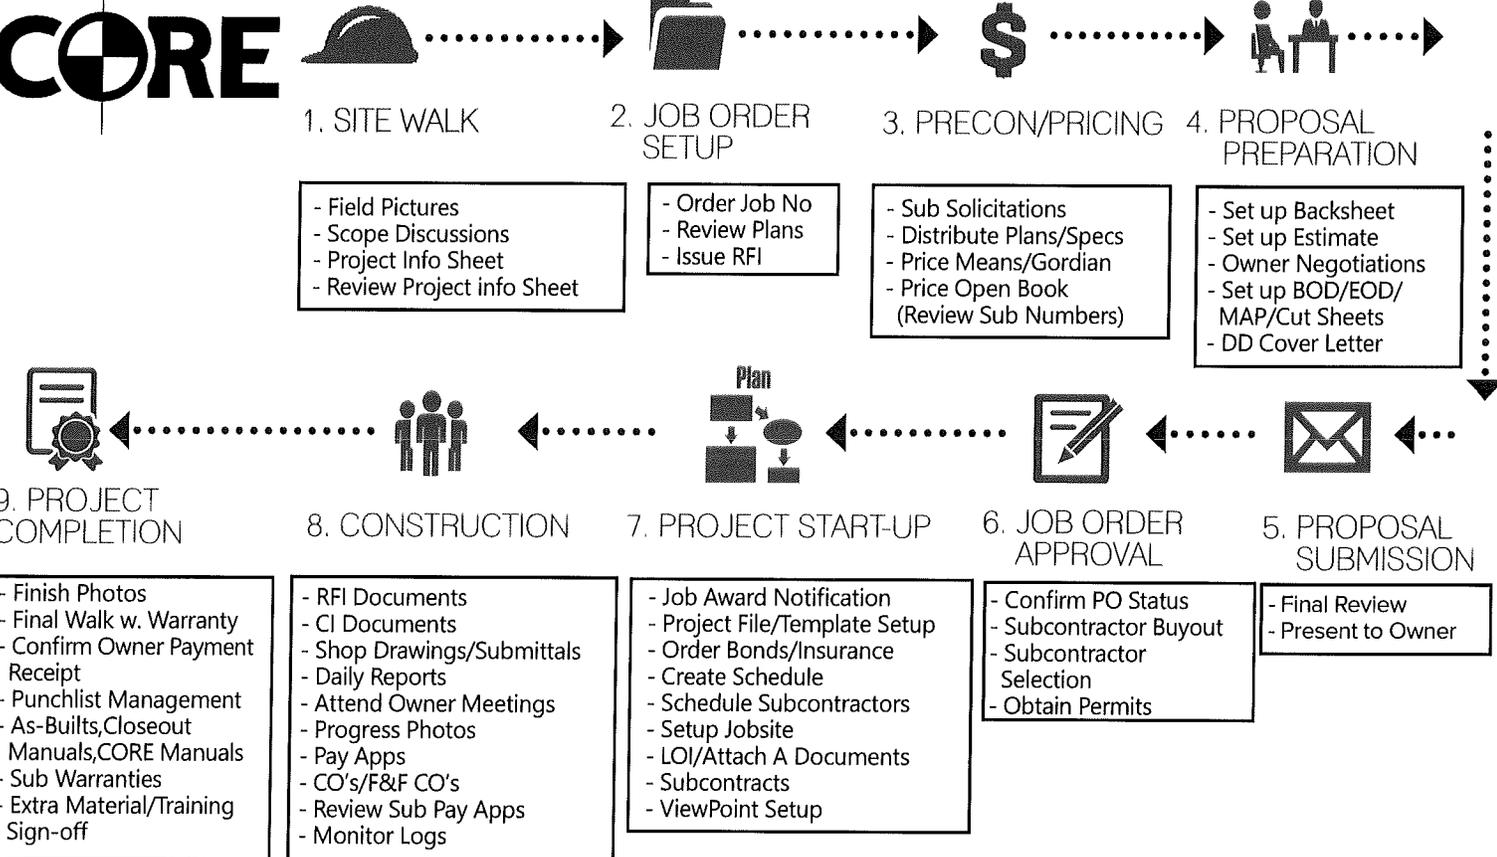

PROPOSAL AND BASIS OF ESTIMATE | DELIVERABLE | CORE developed its own custom proposal package which is the final product submitted by CORE to the Owner. We believe this allows our team to best communicate what our proposal includes. From our assumptions and clarifications related to the project, scheduled start, long lead items for early purchase, project duration, allowances and or contingencies recommended and included, specific exclusions and a detailed itemized list of pricing by scope of work and organized in our 10 Groups. CORE utilizes multiple estimating software programs in order to develop job estimates.

BUILDING CONNECTED, BID SOLICITATION + MANAGEMENT | This program allows us to package and send out to bidders the construction documents developed by our Design Professional partners, coordinate site walks, manage communication to all subcontractors for any questions they may have related to the project, tracking design changes, owner requested changes, options, value engineering, etc. all in one place.

ON-SCREEN TAKE-OFF (OST) AND BLUEBEAM These programs allow our team to ensure the correct quantity of materials are being included from concrete, asphalt, drywall, paint, flooring, ceilings, etc. With these programs our team is able to develop conceptual budgets using historical cost data prior to bidding to subcontractors, check quantities bid by our subcontractors and answer any questions the owner may have related to quantities.

2. Describe how your company will manage a diverse program of job order projects initiated by multiple departments, each with differing levels of owner engagement and/or project management, and all with important deadlines.

Outlined below is our JOC Process that demonstrates our ability to process any job order of any magnitude for the City Peoria's Job Order Contract.

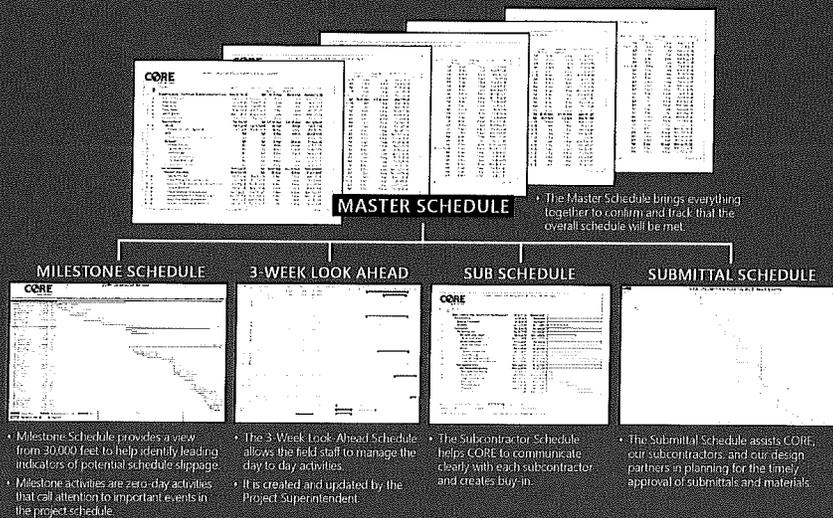

3. Describe your company's approach to managing, and illustrating the project's schedule, from project inception through design (if required), permitting, construction, and close-out. Who will specifically prepare and update the schedule?

PROJECT SCHEDULING | Our team believes a project schedule should include a high level of detail, as illustrated below. CORE will work with City to create a Master Schedule that contains all the activities, relationships, and milestones that will allow us to drill-down and create other specific schedules that we will use as tools throughout the project. From the Master Schedule, we are able to derive a Milestone Schedule which helps to identify leading indicators of schedule slippage.

Due to the level of detail that is put into the Master Schedule, at any point during the project we are able to breakout other schedule types that help us keep the project on track. CORE will assist the City in identifying critical milestone dates for the submission of design documents and budget information. CORE's Project Manager and Superintendent will hold regular project meetings with subcontractors. At this time, CORE will provide subcontractors with look-ahead schedules that breaks the baseline schedule for each job order into a day-to-day schedule. This way the subcontractors and CORE's Project team are on the same page with when materials are to be delivered and installed onsite.

MANAGING THE WORK | CORE's team builds the initial schedules, but look to Subcontractor feedback and support of lead times, durations, manpower availability, etc. CORE works hand in hand with Subcontractors in helping to make sure that ours schedules are built so that CORE can deliver our projects on time, every time. We have a strong track record for completing projects within a prescribed schedule. For complex fast-track, multi-package projects designed for aggressive schedules, 'MUST HAVE' occupancy dates are prioritized and we work backwards and forward to develop a workable schedule.

WE ARE CONFIDENT, CREATIVE, AND FLEXIBLE IN OUR APPROACHES AND ARE COMMITTED TO 'DO WHAT IT TAKES' TO EXCEED EXPECTATIONS!

4. Discuss the key components and advantages of your company's selection process for subcontractors. Demonstrate your understanding of the City's requirement that subcontractor selection must be based on qualifications alone or a combination of qualifications and price, not on price alone. Provide a detailed proposed Subcontractor Selection Plan attached as an Appendix.

CORE understands the City's requirement that subcontractor selection must be based on qualifications alone or a combination of qualifications and price, not on price alone. *Our detailed Subcontractor Selection Plan can be found in the Appendix.*

5. Discuss your company's intentions regarding self-performance for each Job Order and indicate the average percentage (%) of self-performance for the projects your company currently has underway or has completed in the last 24 months.

CORE limits the amount of work that is self-performed. We recognize the expertise of the specialty trade contractor. By thoroughly pre-qualifying local subcontractors, CORE capitalizes on the knowledge and experience of firms dedicated to individual trades. In this way, we are able to also keep much of the revenue generated from these projects local. By utilizing firms that self-perform in their chosen fields on a consistent basis, CORE is able to benefit from a very large pool of resources and able to focus on supporting the quality and production of the project. However, we can and may self-perform rough carpentry items with our full-time on-staff carpenters for select items including minor blocking and backing, temporary protection, etc.

TAB B | Experience and Qualifications of the Contractor

1. List the Arizona professional and contractor license(s) held by your company. Provide the license number and explain if held by an individual or the company.

CORE Construction, Inc. holds two licenses issued by the Arizona Registrar of Contractors. Both licenses are held by the company. Please see the appendix for copies of the licenses.

General Construction B-01 069786 ROC

General Engineering A-110343 ROC

2. Describe any unique or specialty skills, services or equipment that your company possesses that you believe add value to a project and may differentiate your company from another.

CORE Construction holds a number of Job Order Contracts. In 2018, CORE put more than \$40 million worth of JOC services into place in Arizona. We are proud to have repeat clients who continue to request us for job orders, which serves as a testament to our quality workmanship and service. CORE has been in continuous operation in the Valley for more than 36 years. We pride ourselves on investing in professional development and cutting edge technology that enable us to be industry leaders.

3. Describe the scale and complexity of the projects routinely undertaken by your company.

Currently, CORE Construction, Inc. has 180 Active JOC projects in progress totaling over \$36,000,000. Those current projects span throughout municipalities, K-12 and higher education facilities statewide. CORE is currently collaborating with each individual project team generating and construction solutions for interior finish renovations, structural repairs, additions to existing facilities, site infrastructure and mechanical-electrical-plumbing upgrades. All of CORE's current JOC projects are being completed on occupied and operational campuses/sites.

Each individual JOC program is unique and has it's own challenges. One challenge our team has identified is the shortage of quality labor and craft workers. To overcome this, CORE has implemented Master Service Agreements with all subcontractors that perform work on projects. This allows our project management team and contract administration department to electronically issue subcontracts immediately upon selection. CORE is proud of the large number of successful projects completed in and around the State. This has allowed CORE to establish a deep base of pre-qualified subcontractors in the local community, as well as great working relationships leading to high quality of work for a reasonable price. By employing these pre-qualified subcontractors that are experienced both working in the the Fountain Hills area, and for CORE as the Job Order Contractor, our team is therefore able to commit to a timely delivery of each JOC project.

4. Describe how your company manages its resources between projects for different municipal clients. Identify how personnel assignments are determined.

5. Identify the number of active job order contracting agreements your company is currently providing services under (including any City of Peoria agreements). Identify the agency name, minimum and maximum project size, and identify the total quantity (#) and median project value (\$) for the projects your company currently has underway or has completed in the last 24 months. The City may take into consideration the number of Job Order Contracts a company may have, the resource investment of the contractor in current City work, and the amount of previous work recently performed for the City as part of the selection process.

TAB C | Qualifications and Experience of Key Personnel

b. Include in the personnel / project matrix any specific staff experience in partnering, quality control, project scheduling, claims, dispute resolution, changes in the scope of work, construction safety, value engineering, and balancing workloads.

Partnering

We are dedicated to earning the trust of our clients through adherence to teamwork, our CORE values, and the mindset that, "The Client Decides." We truly believe that a project's success is measured by customer satisfaction. CORE maintains open communication with all of our clients and make ourselves available 24/7. In addition, our JOC department has access to more than 65 Superintendents to ensure our team is prepared to respond immediately to job orders.

Quality Control

To ensure quality is controlled on any project, CORE has adopted a three-phase quality control/assurance system (preparatory, initial, and follow-up), modeled after the US Army Corps of Engineers program, as our quality management process. Past experience working on active campuses during school hours throughout the year has prepared our team to understand the best construction practices to avoid costly issues and safety concerns.

Project Scheduling

Our team believes a project schedule should include a high level of detail, as illustrated below. CORE will work with the City of Peoria to create a Master Schedule that contains all the activities, relationships, and milestones that will allow us to drill-down and create other specific schedules that we will use as tools throughout the project. From the Master Schedule, we are able to derive a Milestone Schedule which helps to identify leading indicators of schedule slippage. *Please refer to Page 4 for additional information on our scheduling procedures.*

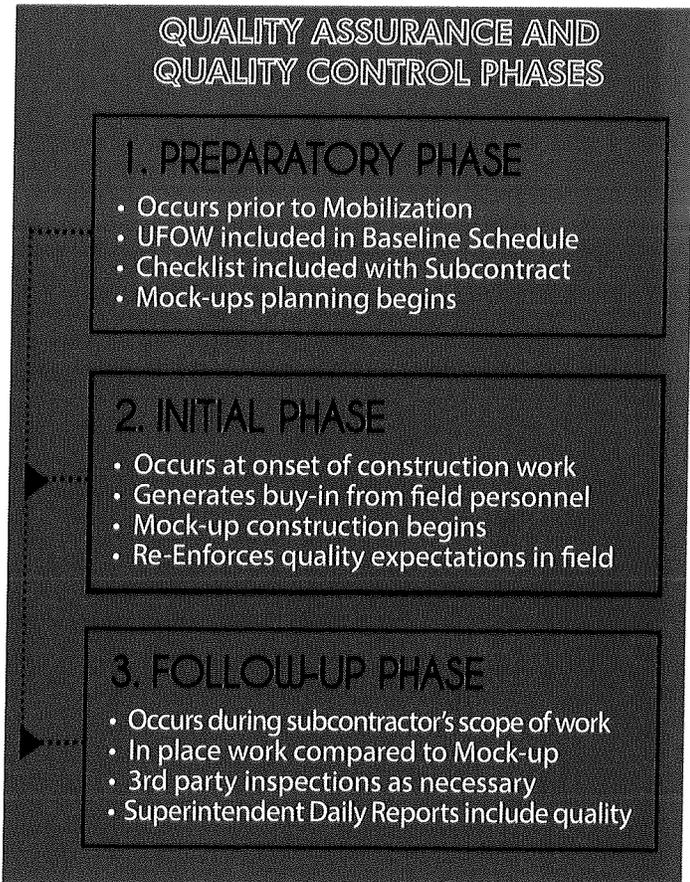

Claims / Dispute Resolution

In the event of a contract dispute, our Team will address the issue immediately and make certain that all conflicts are eliminated. Our approach to every project and with every client, is to establish a means by which all stakeholders are up to speed, and in agreement with all actions being carried out. Our Team will foster an "Open Book" communications process with the City of Peoria and the pre-qualified Subcontractors involved in this project from the Project Pre-Planning through Construction and Completion of the Warranty Period, to eliminate any disagreements or disputes.

Construction Safety

Safety of non-construction personnel will remain the number one priority in CORE's approach to the City of Yuma's project. Life safety plans will be visibly posted throughout the project's site, indicating proposed escape routes and fire extinguisher locations. PreConstruction meetings will be conducted to identify potential fire safety hazards and fire department access routes throughout construction. Jobsite fencing and warning signs will be installed prior to the start of any construction activities. Daily inspections of temporary power and barricades will be conducted by CORE's on site project team.

All subcontractors and vendors providing goods and services on the project will be required to participate in a Mandatory PreConstruction Project Safety Meeting. A detailed presentation of the Project Master Safety Plan outlining the requirements for each individual subcontractor and supplier will be presented during the PreConstruction Project Safety Meeting and again on a monthly basis at the jobsite. All subcontractors and vendors are contractually required to indicate their written understanding of an agreement with the Project Master Safety Plan, prior to starting their construction activities. Subcontractors performing work on each project will be required to submit copies of their firms' Safety and HAZMAT programs, to be filed at the jobsite in CORE's office trailer.

SAFETY is the # 1 priority on all of our projects!

TAB C | Qualifications and Experience of Key Personnel

Balancing Workload

CORE will be proactive and communicate with the City of Peoria to facilitate the planning process for every project. We will work with the City to create a schedule which includes permitting and long-lead items, so the team is aware of the most appropriate time to complete these job orders. CORE has the manpower and resources to complete multiple projects at the same time. In fact, our Job Order Contracting branch is accustomed to responding to a number of job orders received at the same time. Emerson Ward, our Project Director and primary contact for the City and will be available at all times. Internally, Emerson holds regular meetings to review each job, monitor progress and follow-up with the owner. Our JOC success serves as proof that CORE has the manpower, skills and resources to manage multiple projects simultaneously.

Changes in Scope of Work / Value Engineering

CORE has created and implemented a trademarked program called Operational Excellence™. This program contains specific metrics for tracking, managing, and maintaining exceptional (1) safety, (2) quality, (3) schedule, (4) cost control, (5) qualified subcontractors, and (6) client relationships throughout the construction duration of each project. Each of these six factors has an associated goal and the execution of this program ensures that these goals are met. On a weekly basis, the project team reviews each factor providing feedback to the Project Manager for potential improvement. Utilization of the Operational Excellence™ program ensures effective construction administration and management on your project.

OPERATIONAL **excellence** THE CORE STANDARD

Our Business is the business of building - and the tracking of results in our business can be assessed under **six main factors** and their respective goals.

1. SAFETY
ZERO INCIDENTS. ZERO ACCIDENTS.

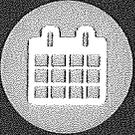

4. COST
PROJECT COMPLETE WITHIN BUDGET. NO CHANGE ORDERS

2. QUALITY
BUILT TO PLANS AND SPECS TO A QUALITY THAT EXCEEDS CLIENT'S EXPECTATIONS. NO RE-WORK.

5. SUBCONTRACTORS
BUILT BY QUALIFIED SUBCONTRACTORS WHO CARE ABOUT OPERATIONAL EXCELLENCE AS MUCH AS WE DO.

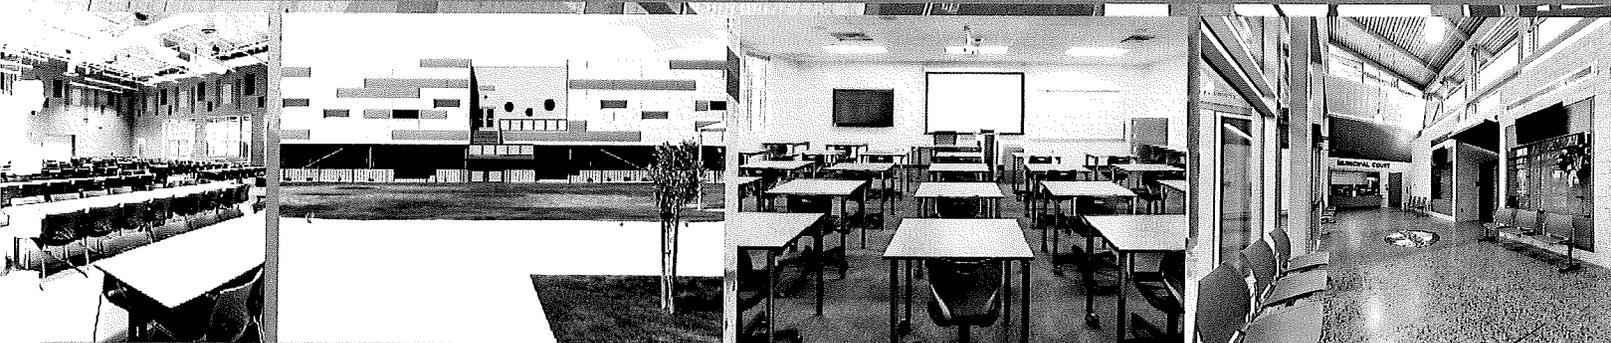

3. SCHEDULE
BUILT ON AHEAD OF SCHEDULE.

6. CLIENTS
THE CLIENT WOULD HIRE US BACK AGAIN.

CORE COMPLETES JOB ORDERS WITHIN LIMITED TIME FRAMES!

One of the biggest advantages of working with CORE's JOC Team is that we are 100% dedicated to JOC services, so we are nimble enough to respond to the City of Peoria's need immediately.

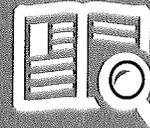

• Subcontractor Selection Plan (1 page)

CORE recruits subcontractors as early as possible. During the PreConstruction phase of a project, CORE will often host a subcontractor fair to encourage early subcontractor involvement. Invitations and notices about the fair are sent to newspapers and other publications ensuring that the subcontracting community is well informed. We will also consult with the City to invite subcontractors that have been used by the City in the past, either on our projects or on other projects. Multiple fairs are often hosted for one project to serve the various phases of the preconstruction process; initial start-up, schematic documents, design documents, and construction documents. In doing so, CORE is able to maximize subcontractor recruitment throughout the entire PreConstruction phase of the project. CORE Construction, Inc. also understands the importance of keeping tax dollars local and using qualified subcontractors. Please see our Subcontractor Selection Plan pursuant to ARS 34-603, outlined below.

CORE'S SUBCONTRACTOR SELECTION PLAN

Selection of sub-contractors using both qualifications and cost as a selection approach. CORE has created a process where subcontractor selection is based on both qualifications and cost, depicted right. This process enables us to get an "Apples to Apples" comparison on scope cost from pre-qualified professionals. The ultimate result is the City benefiting from a Best Value subcontractor that is highly qualified, understands the project, and delivers financial value.

Use Pre-Qualified Sub-Contractors

- Enlist recommendations from the owner
- Enlist recommendations from the Design Team
- Utilize CORE's database of Subcontractors
- Thoroughly review subcontractor qualifications

Understanding of Scope & Assembly of Pricing

- Receive bids from 3-5 subcontractors for each scope of work.
- Subcontractors evaluated for completeness of scope.
- Identify the lowest responsible bid.

Controversies and claims related to work performed by sub-contractors. CORE makes every effort to proactively manage the relationships we have with each of our subcontractors. We pride ourselves on open communication with all subcontractors to mitigate any issues that may arise. Our prequalification process ensures that our subcontractors are able to perform to our quality and schedule standards. CORE has effectively prequalified subcontractors on past projects and we know which companies are qualified to complete your project. Our subcontracts ensure that the subcontractor understands the full extent of the contract documents, their scope of work, and additional project requirements as outlined in the solicitation. Clearly written subcontracts are the most effective tool for avoiding conflicts later in the project cycle.

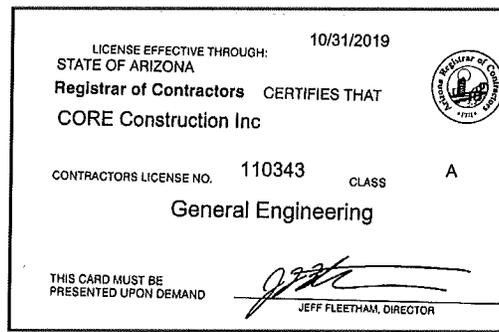

Review of Scope & Pricing with Subcontractors

- Face-to-face meeting with the lowest responsible bidder.
- Conduct an in-depth scope review.
- Allow subcontractor to fix any "scope holes."
- Select subcontractor as a team (Owner, Architect, CORE)

- Scanned Copies of the Arizona Registrar of Contractors

Re: **Job Order Contracting for General Construction Services**
Solicitation No. P19-0034

Dear Ms. Andersen and Members of the Selection Committee,

CORE Construction has advised Travelers Casualty and Surety Company of America, as their surety, of their desire to perform construction services for your captioned project. We have enjoyed a relationship with CORE Construction for 40 years and in that time we have provided any bid, performance and payment bonds that they have required. We have bonded significant individual projects for CORE Construction and they are certainly qualified to perform contracts such as yours, as they have bonding capacity of \$200 million per single project and \$1.25 billion in the aggregate. CORE currently has over \$300 million in available capacity. This is not to be construed to be a maximum, but rather working parameters. CORE Construction has always met their contractual obligations and we believe there is not a higher quality firm you could choose to work with.

Should CORE Construction be awarded a contract on this or any of your projects and be required to provide performance and payment bonds for same, and should contractor so request, we would be in position to provide such bonds, subject to a favorable review of the final bond forms, contract documents and specifications and usual underwriting requirements at the time.

In addition, Travelers is licensed to do business in all states and we have an A.M. Best Co. rating of A++ with a financial size category of XV.

Sincerely,

Travelers Casualty and Surety Company of America

- **We have included a 5% Contractor Contingency in this proposal** – Construction Contingency is intended to be used at CORE's discretion to cover costs that have not been identified as a trade specific scope during the scope walk-thru and/or (if provided) project plans and specifications and may require further clarification or coordination.
