Fencing

- For security new fencing is proposed between the administration building and the buildings on each side
- Fencing will match the existing fencing throughout the campus
- Additional fence screen will be placed at the Arts and Sciences Building

1 ARTS & SCIENCES BUILDING COURTYARD FENCE "BEFORE"

2 ARTS & SCIENCES BUILDING COURTYARD FENCE "AFTER"

3 ARTS & SCIENCES BUILDING COURTYARD FENCE

Statement Of Direction

- The Planning Commission shall focus their review on the visible effects the amendment may have on the neighbors. In particular, the Planning Commission shall focus their review on:
 - Lighting, landscape buffers, screening of mechanical equipment, signage and height of the new administration building. Currently the building is proposed at 27 feet. Planning Commission shall review the height in light of the use; particularly, if 27' is the appropriate height for this one-story office building. Any architectural features greater than 27' shall be evaluated by the Planning Commission for appropriateness to the overall design.
 -
 - Location, lighting, and type of proposed new signage located on the property/campus and that it shall meet all current and proposed lighting standards.
 -
 - Excessive fencing is discouraged and shall be limited to what is needed to secure the campus. Fencing shall meet all current and proposed Zoning Ordinance standards.
