NARRATIVE

The Property is located at 4554 E. McDonald Dr. and is currently designated as being within the Hillside Development Area. The request is for removal of the Hillside designation from this property. While this lot is within the Hillside Development Area designation, it is on the very edge of it with the town's designation stopping at McDonald Drive (which is directly south of the property).

The drawings included in this submittal show that (1) the overall existing slope at Section A is 3.4% (2) the overall existing slope at Section B is 2.65% (3) the overall existing slope at Section C is 2.73% (4) the average slope of Sections A, B & C is 2.93% and (5) the slope under a proposed building envelope in Section B is 1.54%.

The future intention of this property is to do an extensive remodel and addition to the existing residence. All existing structures to remain will conform to the non-hillside development standards. Upon approval of the hillside designation removal, the new construction will follow applicable codes and ordinances as required by the Town.
