GENERAL APPLICATION INFORMATION

Development on property designated hillside within the Town limits of Paradise Valley has additional or different requirements than property not designated hillside. One such additional requirement is the Hillside Building Committee approval process before the building permit process. The property owner and/or person developing on hillside property should be familiar with the applicable regulations. If there are questions, then contact the person listed under Staff Contact Information above. Key hillside regulations to be familiar with are Article X, [Article XXII](#), Article XXIV, Hillside Development Regulations, the [Hillside Safety Improvement Measures and Process Manual](#), and the Town Zoning Ordinance and the [Storm Drainage Design Manual](#).

The purpose of the **Pre-Application Review** is for the applicant to submit and present the proposed development to Town staff to discuss the level of review and provide the applicant with preliminary feedback prior to formally submitting one of the applications described below. This helps to expedite the process by assisting applicants to understand what Town procedures will apply and broadly identify how the proposal meets or lacks requirements pursuant to the Hillside Development Regulations and the Hillside Safety Improvement Measures and Process Manual.

A **Demolition-Only Review** is to ensure that disturbed areas are marked, and all demolition activity occurs within the marked area. The purpose of this review is to reduce storm water impact to downstream properties with the review and approval of a grading and drainage plan; submittal of a Storm Water Pollution Prevention Plan (SWPPP) that is inspected periodically and maintained in working order; and providing a financial assurance prior to the issuance of the demolition permit to be refunded when the lot is developed or if the site is restored back to native conditions.

The **Administrative Hillside Chair Review (Chair Review)** process is for the Hillside Building Committee Chair to review the submittal for compliance with the goals, purposes, and specific criteria of the Town of Paradise Valley Hillside Development Regulations. The Chair can review accessory structures and additions provided the proposed improvements do not: (i) exceed or increase the building height of the main residence; (ii) increase the existing building Footprint by more than 100 square feet; (iii) create more than 100 square feet of additional Disturbed Area; (iv) increase the length of walls by more than 15 lineal feet; (v) propose a significant addition of exterior lighting; or (vi) create a significant adverse visual impact. The Hillside Building Committee Chair will approve, approve with stipulations, forward the request to the Hillside Building Committee, or deny the submittal.

The purpose of the **Concept Plan Review Meeting (Concept Review)** is for the applicant and Town staff to discuss, review, and give guidance to the applicant regarding the proposed development, location of the building pad and accessory structures, and any other items of discussion. The owner or his representative should be prepared to demonstrate how this application relates to site conditions, significant natural features, preservation of existing vegetation, grading concepts, and adaptation to the natural hillside topography. A **Formal Hillside Building Committee Review Meeting (Formal Review) or Combined Review Hillside Building Committee Review Meeting (Combined Review)** is for the Hillside Building Committee to review the submittal for compliance with the goals, purposes, and specific criteria of the Town of Paradise Valley Hillside Development Regulations. The Hillside Building Committee will approve, approve with stipulations, continue, or deny the submittal.

Town of Paradise Valley
6401 E Lincoln Drive
Paradise Valley, AZ 85253
hillside@paradisevalleyaz.gov

After approval by the Hillside Building Committee, the applicant will provide the required financial assurances to the Town Attorney's Office prior to obtaining a building permit (per Section 2205.II.B of the Hillside Ordinance and the Hillside Safety Improvement and Process Manual). The Construction Staging Plan must also be submitted to the Town prior to issuance of a building permit.

The plans for any development in the Hillside Development Area must be approved by the Town and appropriate permits issued before any clearing and grubbing, grading, bulldozing, blasting, or movement of earth is commenced. If development does not commence within twelve months after securing such approval from the Hillside Building Committee, no construction shall occur until plans have been resubmitted and re-approved or if appropriate, based upon circumstances outside the control of the applicant, a one-time six-month extension may be granted by the Town Manager or Designee.

HILLSIDE DEVELOPMENT PROCESS STEPS

1. Review and ensure that the design is in conformance with current requirements (i.e., Hillside Development Regulations (Zoning Ordinance - Article XXII) and Hillside Safety Manual (Town Code - Chapter 5). Contact staff (See Page 2) with questions and/or to schedule a preliminary meeting to discuss the proposed project prior to filing the Pre-Application.
2. Complete the Hillside Development Pre-Application
 - a. Pursuant to Section 2205.I of the Town Zoning Ordinance, the applicant for all applications for development or building and construction within the Hillside Development Areas (Figure 1 of Article XXII, Hillside Development Regulations, of the Town Zoning Ordinance or those areas with a slope of 10-percent or greater pursuant to Section 2202 of Article XXII, Hillside Development Regulations) are required to submit a pre-application prior to making application to the Hillside Building Committee.
 - b. The pre-application is the first official means for both the applicant and Town staff to understand the scope of work, the appropriate Hillside Building Committee application(s) process (i.e., Demolition-Only Review, Chair Review, Concept Review, Formal or Combined Review), other application(s) process (e.g. variance), and necessary plans and documents. Also, it provides an opportunity to identify where the proposed scope is and is not meeting the Hillside Development Regulations and the Hillside Safety Improvement Measures and Process Manual Code.
 - c. At a minimum, the applicant shall submit a narrative describing the scope of work along with a site plan. Other plans and documents may be submitted and contact hillside@paradisevalleyaz.gov to make an appointment for the pre-application review and submittal.
 - d. During the pre-application review, staff will notify the applicant of any necessary corrections or additional information needed prior to submitting the Hillside Development Application, which may result in a meeting(s) with staff.

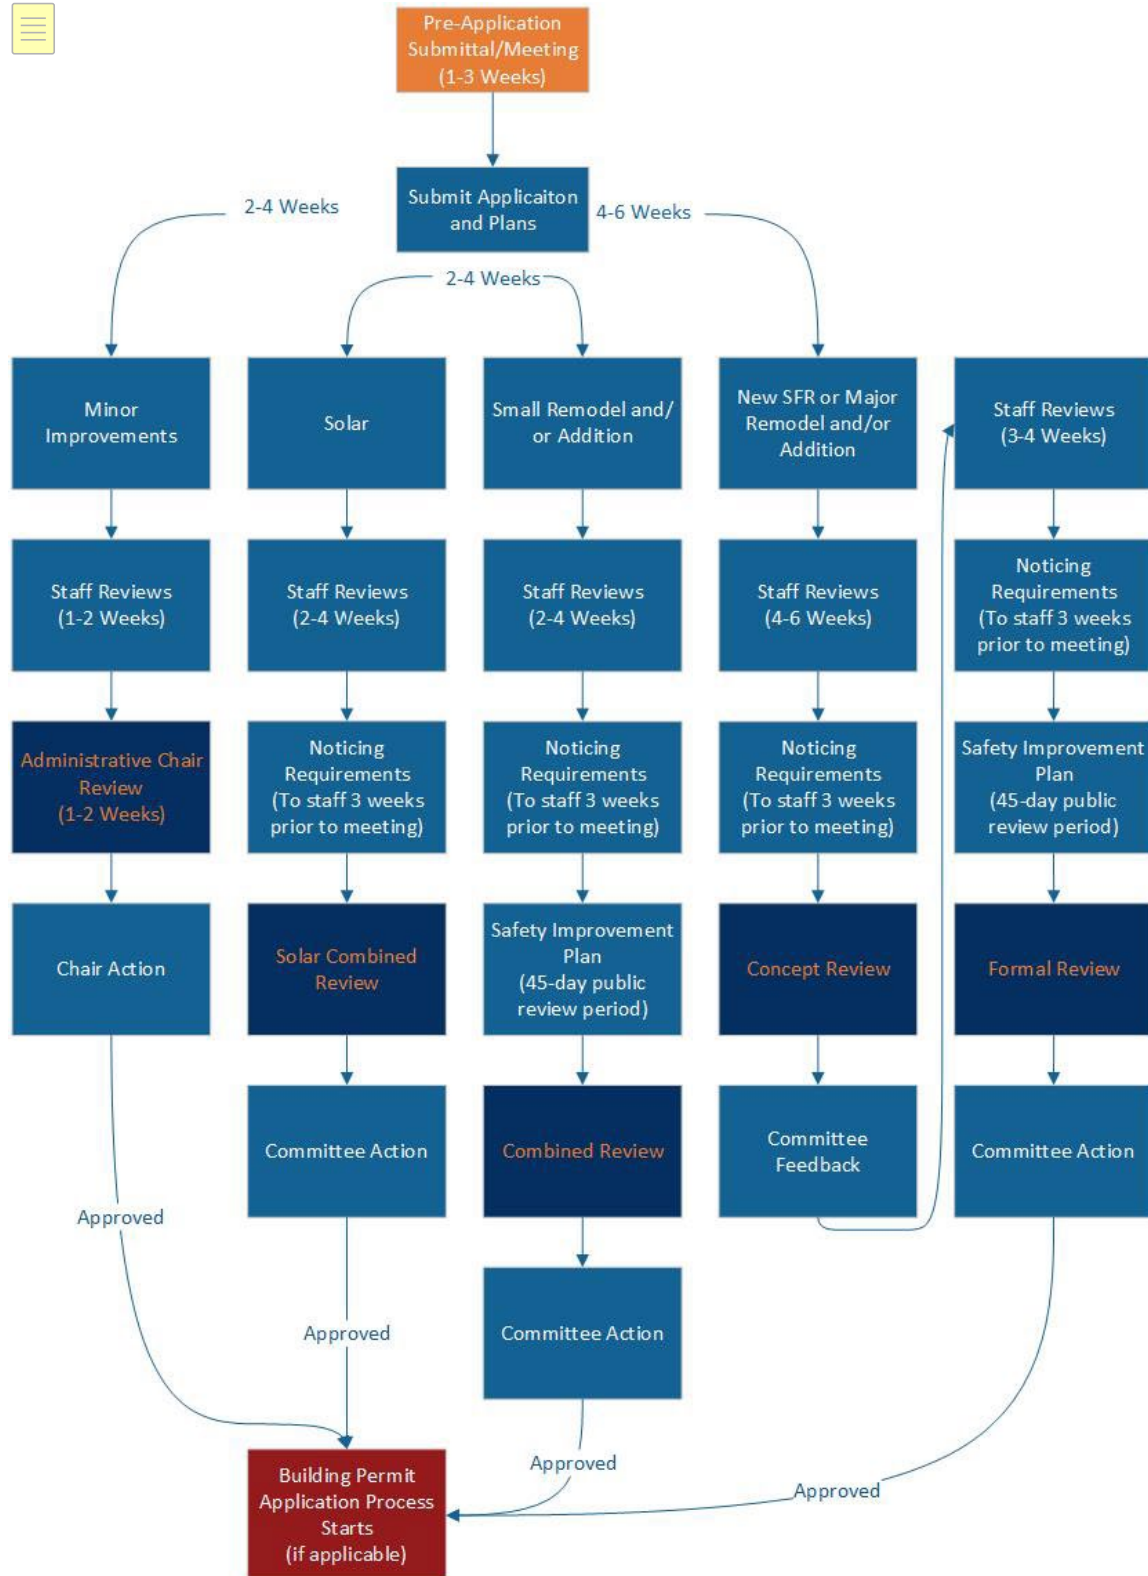

3. Complete the Hillside Development Application

- a. After the Hillside Development Pre-Application review is complete, the applicant can submit the Hillside Development Application. This will include PDF copies of the stamped plans and documents for initial submittal and review. The applicant may schedule a meeting with staff to discuss any review comments. The Hillside Development Application fees are as follows:
 - \$6,600 Hillside Building Committee Review Fee (Concept & Formal Review).
 - \$1,825 Hillside Building Committee Review Fee for Solar Panels on Existing Residence.
 - \$1,550 Administrative Chair Review Fee.
 - \$875 Hillside Building Committee Re-Approval.
 - \$4,200 Combined Hillside Committee Review (includes Removal of Hillside Designation Process).
 - \$0 Hillside Demolition-Only Review (Staff-only)
- b. Staff will review the submittal material. If all comments have been corrected and the application deemed complete, the application will be placed on the next available Hillside Building Committee agenda. Please refer to the Hillside Code Process Flow Chart and Hillside Timeline Chart below for an overview of the hillside review process. However, a meeting will not be scheduled with the Hillside Building Committee until the corrected plans are returned to and deemed complete by the Town.
- c. The applicant shall complete the required notification and posting provisions. Notification to the property owners within 1,500 feet of the perimeter of the property generally occurs three weeks prior to the Hillside Building Committee meeting.
- d. Please refer to the Town's Hillside Safety Improvement and Process Manual (see Section 5-10-4 of the Town Code) for safety insurance requirements, Safety Improvement Plan requirements and Construction Staging Plan requirements.

HILLSIDE SAFETY IMPROVEMENT PLAN REQUIREMENTS

The following documents are required to be submitted for the Hillside Safety Improvement Plan portion of the development process, unless otherwise noted by Staff. Safety Improvement Plans are applicable to all developments including the potential to affect safety, such as land disturbance, cutting operations, and increases in storm water runoff. The Hillside Safety Improvement Plan requires a minimum 45-day public review period with appropriate noticing. **Staff must deem the submittal complete prior to mailing notices. Use numbering and labeling template below to the extent possible.**

HILLSIDE SUGGESTED PLANTING LIST

The guide linked below has been provided to assist with the landscape design for properties in the Hillside Development Area. Non-native plants are not recommended on site, however if used, they are suggested to be placed in areas well screened by native vegetation. At no point should non-native vegetation be placed in undisturbed areas of the property.

NOTICING REQUIREMENTS

Notices are required for all scheduled public reviews. Town Staff will coordinate the meeting and mailing date with the applicant once reviews have been completed and all comments have been addressed. Notices shall be sent to all residents within a 1500-foot radius from the subject property. Instructions on how to generate a current mailing list have been provided below. **At no point should notices be mailed out without prior approval from Town Staff.**

Use the Maricopa County Assessor's map website (<https://maps.mcasessor.maricopa.gov/>) to generate a list by using the magnifier icon on the upper right-hand corner of the webpage. **YOU (MUST GENERATE AN UPDATED/CURRENT LIST FOR EACH MAILING.** You enter the known parcel number, search, and then use the buffer tab to create the 1500-foot buffer (type in 1500 and apply buffer). Be sure to then use option "B. Within or touching the Buffer" to generate the correct number of addresses. After generating the list, you can then use the "..." (dot) menu to export the list to a CSV file to open in Microsoft Excel.
