The Villas at Mountain Shadows Condominiums

Project Narrative

This preliminary Map for the Villas at Mountain Shadows Condominiums is proposed as a 40-unit condominium development. The proposed units will be designed to a consistent design theme with the Design Submittal for the Principal Resort Hotel approved by the Town in a letter dated January 16, 2015, subject to the variation in design, materials, and building types as allowed by the SUP (Stipulation 48 (e)).

The proposed development will consist of ten buildings with four units per building and each unit will include two parking spaces in an enclosed garage. Each building will contain two first level units, as well as two second level units. Additional parking spaces will be available in driveways and additional surface parking. The exact number of additional parking spaces will vary based on final civil drawings and current and future landscape plans. Each unit will comply with the allowable heights of the SUP.

Following approval of the map, building plans will be processed with the Town for receipt of building permits, which shall include a tabulation of actual Floor Area for each building on Tract E (and not the Floor Area of any other allowed elements of the Resort pursuant to Stipulation 43).

Signage for this platted area will comply with the Resort Sign Guidelines (Stipulation 29) to be submitted at a later date and approval by the Town Manager.

There are no existing structures in the area of the proposed plat.

The Owner reserves the right to re-plat and re-map all or any portion of the area encompassed by this plat and map.
