- Three-story element adjacent to ANdAZ resort stepped back with deep, landscaped balconies.

Setbacks/Open Space Criteria

- SUP Guidelines intended for minimum 20-acre resort site.
- Strict application of setbacks and Open Space Criteria to 5.36-acre site renders site practically undevelopable.
- Targeted relief from setbacks and Open Space Criteria necessary for a viable development:
 - Accessory structure setback relief for the French Cowboy.
 - Open Space Criteria step-back relief for third story of guestroom building in southeast corner.

Guestroom Density

- SUP Guideline of 1 guestroom/4,000
 SF intended for minimum 20-acre site.
 - 10.89 guestrooms/acre.
- Strict application of SUP guidelines would limit site to 58 guestrooms.
 - Does not meet minimum viable keys for modern luxury resort/hotel operators.
- Proposed density consistent with other recent hotel development along Lincoln Corridor.
 - Appropriate level of density/intensity for site adjacent to other commercial/lodging development and in close proximity to Scottsdale Road.
