

and number. Chairman Wastchak stated to make the criteria as objective as possible.

It was noted that staff will make the revisions for the next work session on July 11, 2017. It was asked that all comments be given to staff by June 30, 2017.

Commissioner Mahrle noted he cannot attend the July 11th meeting. This meeting will start at 5:00 p.m.

Commissioner Mahrle noted he can attend the July 25th meeting by phone. Commissioners Strom and Covington cannot attend the July 25th meeting.

Start July 11th at 5 pm for work study and provide food for commission.

Staff was requested to measure the noise on the faux cactus, research the landscaping around the faux cactus near McDonald Drive and 56th Street, and verify the manufacturer of the faux cactus still make this cactus.

No Reportable Action

5. PUBLIC HEARINGS

- A.** 17-228 Consideration of a Minor Amendment Request to the Tesseract Special Use Permit -
Change school to The Jones-Gordon School for up to 12th Grade
4800 E Doubletree Ranch Road
- John Berry, attorney for applicant, spoke and requested a continuance to allow them time to work with the neighbors.
- Chairman Wastchak asked to take comment first and then vote on continuance.
- John Berry identified that they limited the number of high school students to 60, reduced the hours of operation, agreed to a closed campus, agreed to have no after school outdoor activities, and outlined the parking agreement. This parking agreement is required for all students and parents of driving age, identifies only 20 students can drive and park on campus provided they are a junior or senior with GPA of 3.0 or greater. He added that the stipulations prohibit off-site parking. The parking agreement notes that there shall be no loitering at the school. Also, the special event stipulation requires the school officials must coordinate with the Town to mitigate any traffic impact associated with special events that could exceed the on-site parking capacity.

It was noted that after school is defined as after 3:30 p.m.

Mr. Berry reviewed the offsite parking area locations.

Commissioner Strom noted that other schools limit parking to just seniors only. Mr. Berry stated other schools do not limit parking to only 20 students for driving.

Chairman Wastchak asked the current number of upper classman that drive. It was stated there are 45 high school students and only one drives.

Public comment was opened.

Nicole Bahu, resident. She stated her son will be attending this school. It is a very good school based upon individual attention. She cannot see traffic increasing at all. Her son will probably not be driving.

Marwan Bahu, resident. He stated the school provides an important service to our community. His child is thriving due to this type of education. This is an opportunity for the Town to be a leader.

Ynez Cross, Scottsdale resident. Her son attends this school. People don't realize there is a diverse school of kids with unique needs. These children are not delinquents. Preparing them for college. No problem with driving restrictions.

Liz Clendenin, resident. She owned the property and sold the school to Tesseract. The school has not been good for the neighbors. She has mixed emotions about request. The application seems to be going through extremely quickly. The school is giving away a lot and the school may find it is not viable. She does not like the high school going in there. The request will create more traffic.

Anita Theisen, resident and owner of the school property. Thanked everyone in moving the conversation forward. She described her concern when her son first attended the school due to the mixture of grades, but found that the kids were kind and compassionate and older kids are role models for the younger kids.

Linda Peterson Warren, resident. She stated she has been in conversation with the applicant. Objective is to maintain dark tranquil night sky. Her property adjoins the property to the rear. She described the number of lights, light height, and when lights should be turned off at the school property. She is opposed to the 8-foot tall light fixture height in the existing Special Use Permit, as this will violate the aesthetic and devalue the surrounding property. Lastly, she stated she supports the school with exception of lighting height and intensity.

Samantha DePalo, Director of the school and a Phoenix resident. Holds herself responsible for the cleanliness and operation of the school. Have had zero behavior incidents with their existing high school students. Thanked everyone for their dialog.

Kelley Bird, two of her kids attend the school and a Scottsdale resident. Jones Gordon school is a place for children to thrive.

James Kuykendall, resident. No one is questioning that this is an outstanding school. Questions is should we expand the school. He is opposed to it. The traffic around school time can back up. People do not adhere to the 30 mph speed limit on Doubletree Ranch Road. Suggested a new entrance off of Tatum Boulevard to eliminate some of the traffic on Doubletree Ranch Road. Opposes the expansion to 9 - 12 grades.

Dorothy Smith, resident. We are a complete residential neighborhood including Phoenix across the street. Against the expansion to a high school. Believes this should be an intermediate amendment for Council review. If approved, the school will be back with other amendments.

Robert Goldman, resident. He adjoins the school site to the east. His concern is for safety due to traffic in the area with kids texting and driving. They will be driving down other streets to access the school. Entrance should be on Tatum Boulevard. Enrollment that can go up to 340 people which will create more traffic that the street cant handle. Questioned how do you decide who cannot drive if have more than 20 students qualified to drive. He does not want high school, but ok with grades 1 to 8.

Paula Galasky, resident. They live behind the school. Her kinds went to public schools. Tesseract school did not live up to their commitments. Will this school live up to their commitments. Frightened of high school students. No opposition for kindergarten through 8th grade.

Dr. Steven Galasky, resident. All kids are special. Anyone can go to a psychologist and get labeled with a special need. Gets on his nerves that everyone is special. Not sold on special needs. Cannot control high school kids. Not true that there will be no incidents.

The public portion was closed. Commissioner Strom asked what is happening to the outdoor lighting. Mr. Berry reviewed the existing lighting plan in the packet and that the applicant is agreeable to the lowered height in the existing stipulation. He noted that their lighting expert will be meeting with some neighbors on-site to see that further improvements may be made. Mr. Michaud clarified the 10 p.m. light shut off is an existing stipulation.

A motion was made by Commissioner Mahrle, seconded by Commissioner Wainwright, to continue the application request to the July 11, 2017 Planning Commission meeting. The motion carried by the following vote:

Aye: 7 - Chairperson Wastchak, Commissioner Anton, Commissioner Campbell, Commissioner Covington, Commissioner Mahrle, Commissioner Strom and Commissioner Wainwright

6. ACTION ITEMS

None

7. CONSENT AGENDA

A. 17-229 Approval of June 6, 2017 Planning Commission Minutes

A motion was made by Commissioner Strom, seconded by Commissioner Mahrle, to approve the June 6, 2017 minutes. The motion carried by the following vote:

Aye: 7 - Chairperson Wastchak, Commissioner Anton, Commissioner Campbell, Commissioner Covington, Commissioner Mahrle, Commissioner Strom and Commissioner Wainwright

Subject: The Jones-Gordon School

Paul,

I have been a Paradise Valley resident for over 25 years. My home is a few blocks away from the proposed location of the Jones-Gordon School.

I would be proud to have this school located in our town. I am writing you on behalf of Molly Schwanz, who is a student at the school.

Molly is a remarkable young girl.

Some of her achievements include:

- Started Kindles for Kids at the Phoenix Children's Hospital 6 years ago.
- Miss DC Ranch Teen Arizona
- Modeled in Paris & Los Angeles
- Three time Youth National Champion in Hunter
- Region 7 Champion in Reining

Molly has Dyslexia. Her success is largely accredited to the Jones-Gordon School. Dyslexic kids are creative, "outside of the box" thinkers. They have to be because they don't see or solve problems the same way other kids do. It is not a bad thing to be different. Sometimes it is the mark of being very, very, talented.

Please think of Molly as you make your decision.

Respectively,

Tom Diamond

Hello Dana

Many of the neighbors are either away or already have plans – A Monday night meeting on 6/26 planned on Saturday 6/24 at 4:40 pm doesn't really give enough notice if you are expecting a big turnout. Which I'm guessing is what is preferred.

Rob and I will attend. The Cooks will attend. Martha Cozzi will attend. Whomever is in town will attend. Maybe next time more notice would be better. We realize there is not much time given the July 11th hearing – that Anita asked for. It would have been more appropriate for Anita to sit with the neighbors before the last meeting started and discuss a date for the new hearing rather than her request a date that was convenient for her.

Sincerely,

Beth and Rob Goldman

Dear Neighbors:

The Goldmans have provided us, on your behalf, a list of questions regarding the Jones-Gordon utilization of the existing Tesseract site. We continue to be committed to working with you on these issues, but believe the best way to bring resolution is to meet in-person as opposed to exchanging emails. Understanding that we have a short time frame between now and the July 11th Planning Commission hearing, in addition to the holiday weekend approaching, we will be holding a neighborhood meeting this Monday, the 26th, at 6:30 pm at the school site to work through the issues. Our team will be there and we look forward to working with you.

Sincerely,

Dana and Anita

Importance: High

Dear Dana,

We truly enjoyed meeting you as well.

The meeting was interesting and probably surprising to all of you to see the amount of support from our neighbors. Imagine if it wasn't such short notice and not summer with a lot of our neighbors away? Is there any reconsideration from Anita regarding our specific issues such as not having grades 9-12 and perhaps using a different location for Grades 9-12 as Tesseract did?

Most of us are firm about not having high school students on our "door step" .

Having a closed campus during the day doesn't fix the "before and after" school issue of having high school students roaming our neighborhood. Kids are kids – they behave very differently the second they are not being supervised. That is the way it is.

I am also curious about the outdoor "sports" situation. There won't be any "outdoor" sporting activities for any of the undergrads or high school kids? Except maybe basketball? Maybe I didn't hear right? If so, my mistake. I would think that would be an important part of the high school experience. I know how much I enjoyed that part of high school – football games, baseball, softball, etc etc. The general camaraderie that comes along with being a part of something like that. But correct me if I misspoke regarding this point. I would think that the high school kids would want to be on a campus where they can have outdoor fun sports. If there is that, then that too will attract additional visitors to events besides just the parents, and add to the traffic and add to what is already an inadequate parking situation for events.

We are also adamant about the amount of traffic that will be on our front door and our surrounding neighborhood with this amount of enrollment planned for this school. All of the traffic observations are for 106 students. Not 340. What if Anita can't fill up the school interior real estate? Will there be a guarantee that this will not be leased out to another school or something else?

So – you are all asking us to "give in to you"? What is being done on your end to "give in to us" other than complying with the "light issue"?

Sorry but I didn't see any compromising on your part other than making sure the light fixtures are addressed.

Did anyone even listen to the comment or discuss further the possibility of changing the entrance to the side street along Tatum Blvd? That may help some of the problem. I thought that was an excellent suggestion. So let's hear some feedback on that.

So let's see some "give" and not just all "take" here. Then we can discuss a meeting. One of the neighbors – Dorothy – really hit home with her comments the other evening. This is being addressed as a "minor" issue. She is right. This is not minor. This needs to be handled as such since this is major to us.

Sincerely,

Beth and Rob Goldman and Neighbors

Beth, Robbie, Stu and Karen,
I know that the summer is upon us and that many people are leaving to escape the heat. I would really appreciate an opportunity to meet with you. I will accommodate any schedule that works for you. I can come to you or I can take you to coffee, breakfast, lunch or dinner. Please tell me what works and we will make it happen.

Warmest Regards,
Dana

Dear Stu and Karen,
I know that last evening was not the best possible introduction for us, but I was so happy to have had an opportunity to meet you. I have heard about the famous "Mike Troyan" for many years (many, many years at this point), and it was wonderful to make a connection. I know there are concerns regarding the relocation of my school to the Doubletree campus so I would welcome an opportunity to meet with you to discuss your specific concerns further. Would it possible to find a time to meet? I am happy to work around your schedule.

Subject: High school

I live across the street from Tesseract on Tatum. I believe the high school in this area would be an asset to the community. Education is a necessity to any community. The area is safe and would be a positive learning experience. Michael steingart DO

Re: Jones Gordon School

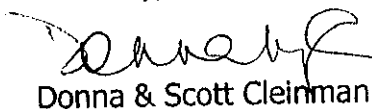

Dear Planning Commission Members:

Unfortunately we are unable to attend the meeting scheduled tomorrow evening regarding the Jones Gordon School. We are in favor of the school taking over the property located on 4800 E. Doubletree Ranch Road. We also have no concerns at all about the school moving in.

As a former Tesseract family, we know the space is equipped to handle a much larger population of the 100 – 120 students expected and feel that the parcel is large enough to not disrupt its residential neighbors. We are confident that someone as renowned as Dana Herzberg will be running a first class establishment.

Please feel free to contact us if you wish to discuss further.

Sincerely,

Donna & Scott Cleinman

Paul Michaud

Dear Paul,

Thank you, I am bringing that up with members of the Town Council about some thoughtful consideration when something could potentially impact a neighborhood adversely and letting it be rushed through with 15 days from mailing, which can effectively be 10 days from receipt. That seems insufficient notice to me and from the neighbors I have heard from. I think it has created a sense of panic and enflamed feelings on the issue unnecessarily.

If Beth and Robby Goldman had been out of town and not so organized, this could have gone very differently. And the reason they are home is she is quite ill and will not be getting any better. I share that in hopes that it will provide some understanding and compassion to the strength of their response And I do believe that they feel this was thrown on them with little notice and time to understand, as with all of us, creating a stronger reaction.

Hopefully a calmer discussion can ensue now.

Margaret:

I fully understand the importance of notice and the potential impact application requests may have on a neighborhood. The Planning Commission did recognize the importance of affording more time for neighborhood discussion with the

applicant on this matter. They continued the hearing to their July 11, 2017 meeting. As for changing process, that needs to be directed from Town Council by policy and/or code change.

It is through involvement by yourself and your neighbors that allows for better projects that fit with the neighborhood and identifying better ways to handle such requests. I do appreciate you and your neighbors time in getting involved.

Subject: RE: The Jones Gordon School - Noticing

Good afternoon Paul,

Thank you for your prompt reply. I do feel that possibly changing the character of a neighborhood should afford residents more than 15 days from mailing. Our street and Double Tree are the ones that are going to take the brunt of high school drivers, older kids and increased enrollment eventually. It would seem that such a decision should be taken carefully with careful consideration for the impact on the neighborhood around the school. What has been shared with us to date, saw some consideration but the parking spaces for students seemed very low and having a closed campus so that we don't have highschool kids roaming the neighborhood was not addressed.

My point is there are several important considerations when you are changing the character of a school and its impact on the neighborhood. 15 days from mailing in the summer to speak or forever have your property value diminished or have your crime rate increased, or your street be subject to increased traffic, etc. does not seem fair.

But thank you for explaining that they have complied with the town's rules. It would seem the town's rules are not providing for fair notice and resident's ability to determine their position. There was nothing sent to us as residents about how the school planned to handle the impact on the neighborhood. Who do I speak with about the town's rules on such a potentially important impact being handled with so little time and consideration?

Thank you again for your time,
Margaret
