Feature Info

Aerial Tile Boundary

Displays the boundaries of each photo tile along with a label box that contains the date, pixel size and photo tile name. This feature is only visible when zoomed in closer on the map.

Date: 11/6/2012

Pixel: 0.8 ft

Tile: 690790

 HISTORIC FLOWS

The figure is a grayscale aerial photograph of a desert landscape. Overlaid on the image are several elements:
1. **Historic Flows:** Represented by thick, irregular blue lines that trace paths across the terrain, likely indicating water flow patterns.
2. **Project Site:** A specific area is outlined in yellow, labeled "PROJECT SITE" in a red-bordered white box.
3. **Property Boundaries:** Thin orange lines delineate individual land parcels.
4. **Photo Tile Labels:** Numerous small yellow labels are scattered across the map, each containing a three-part identifier (e.g., "169 51 004", "169 52 015").
5. **Roads:** Several roads are visible and labeled in white, including "N 4th St", "E Desert Crest Dr", "E Highlands Dr", and "E Lamar Rd".
6. **Scale and Orientation:** A scale bar at the bottom left indicates a distance of 100 feet. A vertical scale bar is also present in the top left corner of the map area.

This is an aerial map of a residential neighborhood. The map displays property boundaries in orange, lot numbers in yellow, and street names in white. A yellow polygon highlights a specific lot, and blue lines trace a path through the area. The streets shown include W 40th St, E Desert Crest Dr, N 40th Pl, E Lamar Rd, N Highlands Dr N, and E Highlands Dr. The lot numbers are organized by block, with 169 51 lots in the upper left, 169 52 lots in the lower left, 169 53 lots in the upper right, and 169 19 lots in the lower right. A scale bar in the bottom left corner indicates 100 feet.
