Town of Paradise Valley
Hillside Building Committee

RE: Project Narrative - 5659 N Superstition Lane

To Whom It May Concern:

We are requesting a formal approval from the Hillside Building Committee for material selections, addition of a drive gate, addition of a fire pit, conversion of a koi pond to a water feature, new plantings and lighting plan, and a modification to the pool fence. All the above items were previously submitted and approved for the former owner/architect. The purpose of this review is to update the items mentioned above to reflect the adjustments made on behalf of the new owner.
