- Meetings with residents
- Meetings with Phoenix Deputy City Manager and Director of Water Services
- Town Manager memo to Mayor and Council
- Study Session

Calculation of Sewer Assessment

- Base charge = \$1.00
- Rate per ccf = \$3.7101
- Environmental fee per ccf = \$0.8267
- 15,000 G/M winter avg would =~ \$90.97

* Includes 50% surcharge

Impact of Winter Water Usage

- 79% of average of water consumption for January-March
- Sets rate for following July-June billing
- Impact of overseeding, winter pool repairs, etc

Appeal Process

- Required annually
- Must be submitted prior to 60 days before July 1 each year
- Items considered:
 - Leaks
 - Pool filled or repaired
 - Irrigation
 - Square footage of landscaping area

Appeal Form

City of Phoenix

2018 Request for Sewer Fee Adjustment

Each year, sewer fees are recalculated based on a percentage of your actual water used during January, February, and March, and become effective each July. Sewer fees include a standard deduction for water used for landscape during those months. This percentage will vary based on weather conditions. Based on the size of the property's landscape area, the sewer fee includes an allocation for trees and shrubs. To be eligible for a Sewer Fee Adjustment, you must have a larger than average landscape area, had a leak(s) repaired, or filled or repaired a pool during January, February, or March.

All requests for Sewer Fee Adjustments must be submitted within 60 days of the July bill.

Requests received after 60 days will not be eligible for a sewer fee adjustment. This form is to be completed each year an adjustment is warranted. We accept requests prior to July, but no rate adjustments will be made for months prior to July. Upon approval of the appeal, the sewer fee will be recalculated and appear on the next bill.

Questions should be directed to the Water Services Department, Customer Services Division at: cityservicesbill@phoenix.gov
