RE: 6001 E. Foothills Drive, Bruce & Judy Hoechner

Dear Hugo,

Please find drawings that reflect the owners desire to develop a front area that includes a covered patio, pool and BBQ area. This solution will be consistent with the floor level of the existing residence, raising the pool level about 4 feet. The redevelopment of this area does not increase disturbed area or exceed the 300 linear feet of visible site wall. It will provide the family an interactive outdoor space with no impact on any immediate neighbors or existing drainage patterns.

Thank you for your attention to this matter and please do not hesitate to contact me if you have any questions.

Regards,
