### **Council Goals or Statutory Requirements:**

Arizona Lottery Funds (ALF) are state shared revenues that are designated and restricted for public transportation uses only.

### SUMMARY STATEMENT:

During the 2018/19 budget process, "Ollie the Trolley: Resort Trolley" was discontinued. This Trolley had stopped at Town hall, four resorts, two trailheads and Scottsdale Fashion Square. Total ridership in 2017 was 2,715.

The Town receives state shared revenues including "Arizona Lottery Funds" ("ALF") that are restricted for public transportation uses only. The ALF funding is "use it or lose it" so if the Town has no allowable use for the funds, the Town must return them to the state.

Town Management and Directors have explored options and believe a modified trolley route would help address parking issues near the trailheads and would be the best use of the ALF funding for 2018/19. The route would be less in scope and only include stops with more frequent riders.

The Town Trolley is free to all riders and 100% paid by ALF. The Town Trolley would have stops at Town Hall, Camelback Inn, Echo Canyon Trailhead, Cholla Trailhead and Scottsdale Fashion Square. Fashion Square is then a hub where riders can transfer to Baseball Facilities and Downtown Scottsdale. The new route would reach Cholla Trail from a southbound direction, resolving a previous issue of pedestrians needing to cross the busy roadway. Services would be provided February 14 to April 27, 2019.

## **PUBLIC TRANSIT**

Public transportation is recommended to be fully (100%) funded through funds distributed to jurisdictions from Valley Metro. The funding is from Arizona Lottery Fund (ALF); and the Deputy Town Manager acts as the program manager. No general fund resources are being requested or recommended for public transportation programs in the recommended 2019/20 budget.

Public transit is "defined as any service, vehicle(s), or support facility for a vehicle(s), intended for the purpose of conveying multiple passengers (i.e. typically 5 or more)" and "includes the planning and administrative support for such services". Some "special needs", "dial-a-ride", or other demandresponsive or carpool vehicles may have less than 5 passengers. Services can be contracted with a transit provider.

Examples of eligible expenditures include, but not limited to:

- Fleet, buses, vans and paratransit vehicles;
- Light and rapid rail construction projects;
- Passenger shelters, bus stop signs, and similar passenger amenities;
- Vehicle rehabilitation, remanufacture or overhaul;
- Storage or maintenance facility construction or rehabilitation;
- Provide access to bicycle transport, transit vehicles or to transit facilities;
- Lease of equipment when lease is more cost effective than purchase;
- Passenger information kiosks, scheduling technology, and weather information systems;
- Fuel, oil and maintenance costs for vehicles;
- Fuel, oil and maintenance costs for v
- Transit employee salaries;
- Marketing and administration of programs to encourage reductions in travel and promote alternative modes such as carpooling, vanpooling, walking, bicycling, and alternative work schedules.
- Marketing to advertise and promote transit service in the service area.

Funds under this program are required to be spend within two years of receipt. The table on the next page shows how the AFL funds have been used since FY2016/17.

The final grant submissions are typically due at the end of January. Staff will revisit this budget with Council before Thanksgiving to validate options for use of funds.
