Changes to the Landscape Plan

- 1.) We added a total of **+9 trees** to the Bottom of the slope to help screen the slope from the street and the neighboring properties.
- 2.) **8** of these 9 Trees are **36" Box**.
- 3.) Added a total **+36 plants** to the slope in the re-vegetation area. This is in addition to the 30 plants we already had in this area, totaling 63 plants in this area.
- 4.) These are in addition to the Native seed mix that will help this area revegetate back Naturally over time.
- 5.) Added a **+1 Ocotillo** in front of the staircase to help screen that tall wall.
