

The Honorable Mayor and City Council  
Town of Paradise Valley  
Paradise Valley, Arizona

We have audited the financial statements of Town of Paradise Valley for the year ended June 30, 2020, and have issued our report thereon dated November 13, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. Professional standards require that we communicate to you the following information related to our audit.

Our Responsibility under Auditing Standards Generally Accepted in the United States of America

As stated in our engagement letter dated May 10, 2020, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

As part of our audit, we considered the internal control of Town of Paradise Valley. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. However, the standards do not require us to design procedures specifically to identify such matters.

Significant Audit Findings

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Town of Paradise Valley are described in Note 1 to the financial statements. No new accounting policies were adopted and application of existing policies was not changed during the year ended June 30, 2020. We noted no transactions entered into by the Town of Paradise Valley during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Significant Audit Findings (Continued)

*Qualitative Aspects of Accounting Practices (Continued)*

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The following areas involve significant areas of such estimates for which we are prepared to discuss management's estimation process and our procedures for testing the reasonableness of those estimates:

Management's estimate of the net pension liability is based on an actuarial report performed by an independent party for the pension administrator. We evaluated the key factors and assumptions used to develop the net pension liability in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

*Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

*Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Attached is a summary of adjustments made to the financial statements that have been recorded by management. Also attached is a schedule summarizing uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as whole.

*Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the attached copy of the management representation letter dated November 13, 2020.

### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Town’s financial statements or a determination of the type of auditors’ opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Town’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

We discussed a variety of matters, including the application of accounting principles and auditing standards, with management prior to engagement as the Town’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

### Other Matters

We applied certain limited procedures to management’s discussion and analysis and pension schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on Other Supplementary Information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on introductory and statistical sections, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

### Internal Controls Over Financial Reporting

We were engaged to plan and perform our audit in accordance with *Government Auditing Standards* (GAS) issued by the Comptroller General of the United States. We have issued a separate GAS report dated November 13, 2020 in accordance with these standards. Our report did not identify any instances of deficiencies in internal control that we considered to be a material weakness or significant deficiency as defined in that report.

### Other Observations and Recommendations

We noted other matters involving internal control and its operation, and other observations, which came to our attention during the course of our audit of the financial statements and offer these comments and suggestions with respect to these matters.

#### *Allowance for court receivables*

*While auditing court receipts, we noted court receivables greater than one year outstanding have been allowed for, but never written off. A significant number of receivables dating back years continue to accumulate.*

*Effect: The past due receivables continues to grow in the accounting system, with little probability of collection.*

*Recommendation: It is best practice to write off accounts that are no longer being pursued or are deemed uncollectible. We recommend the Town adopt a policy detailing a reasonable period for how long the Town will pursue outstanding receivables before writing them off. Any write-off subsequently collected can later be recorded as "Bad Debt Recoveries" in the instance it might occur.*

#### *Customer Deposits Liability*

*While auditing customer deposits, we noted a significant number of deposits dating several years back that are no longer active or have not had any activity or progress made on the customer account in the recent years.*

*Effect: Liabilities continue to accumulate causing an overstatement of deposits that should be escheated to the State or recognized as revenue.*

*Recommendation: After two years of attempting to return refundable deposits, we recommend the Town escheat the deposits to the State when applicable or recognize the revenue for the deposits with no remaining historical information to use in escheatment.*

Restriction on Use

This communication is intended solely for the information and use of Town Council and management of Town of Paradise Valley and is not intended to be, and should not be, used by anyone other than these specified parties.

A list of the uncorrected misstatements is attached to the representation letter. In addition, you have proposed adjusting journal entries that have been posted to the entity's accounts.
