Importance: High

Dear Mayor and Council Members

At the Town Council meeting this Thursday, Paul Mood (Town Engineer) will be presenting plans to perform roadway and wash improvements to a section of E Desert Crest Road

As the residents in this neighborhood whose properties are subject to the most damage when there is significant rain fall, we would like to express our support for the proposal and provide evidence via the attached photos of the damage that is typical. We believe that the proposal will significant improve the situation by better controlling the water flow and reducing the resulting damage to the properties on the south side of the road.

Please feel free to contact us at anytime if you have questions regarding this matter

Thank you
