### **SUMMARY STATEMENT:**

#### History and Scope of Request

Five Star Area C is currently comprised of 39 single family residential lots and a private roadway tract. The applicant is proposing to enlarge the properties by reducing the number of parcels from 39 to 32 lots. With the reduction of properties, the average lot size is increasing from 15,895 square feet to 19,372 square feet.

Via this replat, the front yard designation for Lot 28 (previously recorded Lot 34) is changing from a west orientation (along E Bella Vita Drive) to a southern orientation (along E Dolce Drive). As a result, the previously recorded 1' wide Vehicular Non-Access Easement (V.N.A.E.) along the south property line will be abandoned to accommodate the driveway and a new 1' wide V.N.A.E will be placed along the west property for Lot 28. The existing private roadway tract, emergency access tract, and all other easements (e.g. Public Utility Easements, Nonvehicular Access Easements, and Shared Facility Easements, etc.) will remain in the same locations and will not be modified.

However, due to changes in the lot numbers and the lot configurations, two Shared Facility Easement Agreements and the Private Right-of-Way Easement and Agreement forms must be updated and re-recorded to reflect these changes. Also, the modified lot lines may require the relocation of certain utility stub-outs since the current stub locations may no longer adjoin the lots they will serve. Stipulations were added to address these issues.

Building permits have been issued for the guard house and for a new single-family residence on Lot 29 (previously recorded Lot 35). The replat does not adversely affect these permits. The guard house is in the private roadway track (which is not changing) and Lot 29 increased in size which results in a larger setback from the new property line.

There is no expense or out pocket cost to the Town as a result of this replat. Also, the replat does not change the resort fees or other financial obligations of either Five Star or the Town.

Per Article 6-9 of the Town Code, a replat is a non-administrative land modification which follows the final plat process and requires Town Council review and approval. As a result, the Town Council must act on the replat within forty (40) days from when staff deems the application complete (with the 40<sup>th</sup> day being February 14, 2021).

Neighborhood notification was done in accordance with the replat process. No comment or inquiries were received.
