Subject: RE: AT&T PHX01_008_A / Bus Stop Sign Removal & Reinstalla on / 5401 N Scottsdale Road

Mr. O'Grady,

As per our conversation regarding the removal and transfer of the VMR Bus sign located at 5401 N Scottsdale Road. The subject sign will be removed only for the time it will take to remove and replace the new pole.

Please consider this email approval and consent to remove and transfer the subject VMR bus sign to the new proposed light pole. As a stipulation, we ask that you provide us with the date and time you will be switching out poles and a contact person that will be on site. One of our inspectors will verify and confirm the sign was replaced in a timely manner and without any damage.

Thanks,

Rob Garcia
Utilities Manager
Valley Metro

Robert,
After our conversa on yesterday, I did note receive an email from you giving AT&T permission to swap the bus sign onto the new pole. Please call me if there is an issue.
Thanks!

Victoria,
AT&T will be removing an exis ng light pole and replacing it with a Small Wireless Facility (SWF) at the address above. I have attached a photo of the subject light pole. The Town of Paradise Valley requires an authoriza on from Valley Metro allowing AT&T to remove the bus sign on the exis ng pole and transfer it to the new SWF pole. Please respond to this email authorizing the swap or advise on the process for getting authoriza on.
Thank you!
