

Action Report

File #: 21-100

To: Hillside Building Committee

From: Hugo Vasquez; Hillside Development Administrator

Date: March 10th, 2021

Subject: Concept Review for a new single family residence at 5870 E Indian Bend Road (APN 169-55-013).

Narrative: The proposed project shall construct a new single family residence. The new project has an application date of June 9th, 2020 and will be reviewed under the 2018 Hillside Development Regulations.

Lot Data		
1.	Area of Lot	1.141 ac or 49,695 ft ²
2.	Area Under Roof	10,527 ft ²
3.	Floor Area Ratio	21.18%
4.	Building Site Slope	3.16%
5.	Allowable Disturbed Area	29,817 ft ² (60.00%)
6.	Existing Net Disturbed Area	13,325 ft ² (26.81%)
7.	Proposed Net Disturbed Area	16,084 ft ² (32.37%)
8.	Maximum Building Height	To Be Determined
9.	Overall Height	To Be Determined
10.	Volume of Cut/Fill	To Be Determined
11.	Hillside Assurance	To Be Determined

Background

The property contains an existing single family residence constructed in 1961.

Single Family Residence

The new project shall demolish the existing residence and construct a new single family residence with an approximate total of 6,600 ft² of livable area.

Guesthouse

No guesthouse is proposed.

Driveway

A new driveway has been proposed entering from N 59th Place.

File #: 21-100

Pool

A pool is proposed south of the residence.

Materials

No proposed material details have been provided at this point.

Landscaping

No proposed landscaping details have been provided at this point.

Land Disturbance

A net disturbed area of 26.81% (13,325 ft²) currently exists on the lot and the building pad slope of 3.16% allows a disturbance of 60.00% (29,817 ft²) the lot. The applicant has proposed a net disturbed area of approximately 32.37% (16,084 ft²), which is less than the allowable disturbance.

Grading and Drainage

A preliminary grading and drainage plan has been provided. The proposed construction of the property shall be required properly retain the "pre vs post" storm water volumes for the 100-year, 2-hour rainfall event. Underground stormwater storage is proposed.

Sewer

Sewer is available along N 59th Place. The applicant is proposing a connection to the existing sewer.

Hillside Safety Improvement Plan

The Applicant shall submit a Hillside Safety Improvement Plan in accordance with the Hillside Safety Improvement Measures and Process Manual per Section 5-10-9 of the Town Code.

The Hillside Building Committee Formal Review Meeting shall not be scheduled until the Town Engineer and/or Technical Advisory Board are satisfied with the Applicant's Registered Professional Engineer sealed reports comprising the Safety Improvement Plan and the Formal Hillside Plans. The Safety Improvement Plan shall remain the responsibility of the Applicant and have the seal of the Applicant's Engineer who shall be liable for any failures.

Conceptual Plan Review

The purpose of the Conceptual Plan Review Meeting is to discuss, review, and give suggestions and guidance to the applicant. A detailed set of plans will be submitted for formal review in accordance with Section 2206.I. The following criteria are sections of the Hillside Building Code that govern the conceptual review:

- **Section 2205.III - Concept Plan Review Meeting:**
The Applicant, along with their architect and engineer shall submit a completed application and the required fees, to the Town Engineer, at the time they request a concept plan review meeting (pre-hillside meeting) with the Hillside Building Committee. The purpose of this meeting is to discuss, review, and give suggestions and guidance to the Applicant regarding the proposed development including: the location of the building pad and accessory uses; how these relate to Significant Natural Features; the preservation of existing vegetation; grading concepts and their adaptation to the natural hillside topography; and how the requirements pursuant to these hillside regulations and purpose statement will guide the proposed Development.
- **Section 2206.II - Concept Plan Review Meeting.**
The applicant shall submit the following:
 - A. Seven (7) copies of a preliminary site plan that includes, but is not limited to, the building footprint, driveway, swimming pool, and accessory use locations along with topographic information for the lot.
 - B. A 3-dimensional representation of the general massing of all proposed structures (e.g. a mass model, a 3-D rendering or a computer-generated model in relation to topography - not a detail model).

- C. A recent aerial photo of the site (less than 1 year old), with topography, lot lines, and the building footprint superimposed on it, and identification of significant natural features as well as adjacent lots and structures within 100 feet of the perimeter of the subject property (min. 24"X 36"), and the location of the driveway access in relation to the nearest roadway.

- D. Preliminary calculations on land disturbance and cut and fill methods.
