GENERAL PLAN OVERVIEW

Refreshed Vision Statement based on overall community feedback:

Vision Preface

Paradise Valley is a premier, low density, residential community in Arizona with a national identity reflecting excellence in development and design and protection of the natural Sonoran Desert environment.

Centrally located, this desert oasis, surrounded by mountains, cacti and wildlife is in the midst of the fifth largest city in the country, offers convenient access to local and regional amenities while preserving a sense of privacy, quiet, dark night skies and public safety that represents an unparalleled quality of life.

The incorporation of Paradise Valley in 1961 was hard fought and came about with a conscious decision to preserve the natural desert and provide a semi-rural, residential community with limited commercial development and limited government.

Vision Statement

The aesthetic beauty of Paradise Valley attracts residents, their guests and resort visitors alike, to experience this special place we call paradise.

As Paradise Valley looks to the future, we build upon our past by capturing the independent spirit that founded this community while taking prudent and responsible actions to improve the quality of life for Town residents.

Our future will be defined by the continuation of our characteristic low-density, residential housing and the role of local government to ensure quality public safety and other limited services, preserving natural open space and mountain views, and making neighborhood-compatible land use decisions throughout the Town.

Our churches, schools, world-class resorts and other limited non-residential community-oriented development and services will continue to evolve and change with the times to allow the community to meet the social, environmental, technological, and economic needs of today, while sustaining the authentic sense of place and semi-rural character that makes the Town so unique.
