Subject: Combined review for an interior/exterior remodel to the residence located at 8002 N. 47th Street (APN 169-11-123 & 169-11-124).

Narrative: The subject property contains an 8,057 ft² home built in 1976. The home spans across lots 64 and 65 of the Tatum Canyon Subdivision. The existing driveway crosses lot 66. From reviewing historical aerial photos lot 66 previously contained a single family residence which was demolished in approximately 2006/07. At that time the driveway was relocated across lot 66.

The proposed project will remodel the interior and exterior of the existing home. The exterior improvements will generally consist of replacing the existing red tile roof with a black standing seam metal roof, replace existing single pane windows and doors with energy efficient windows and doors, square off arches as well as make improvements to the pool and spa area. The project will also add a new driveway on lot 65 similar to its previous alignment and provide storm water retention.
