TO: Mayor Collins and Town Council Members

FROM: Kevin Burke, Town Manager
Dawn-Marie Buckland, Deputy Town Manager
Paul Michaud, Interim Community Development Director
George Burton, Planner

DATE: May 24, 2018

DEPARTMENT: Community Development

AGENDA TITLE:

Finisterre Subdivision Wall (MI-18-02) - Work Study
6440 N 61st Place (Assessor's Parcel Number 169-39-125)

Town Value(s):

- ☒ Primarily one-acre, residential community
- ☐ Limited government
- ☐ Creating a sense of community
- ☐ Partnerships with existing schools and resorts to enhance recreational opportunities
- ☐ Improving aesthetics/creating a brand
- ☐ Preserving natural open space

The modified wall height is compliant with Sections LU 2.1.3.7 and CC&H 3.1.1.2 of the General Plan which encourages the effective upkeep of attractive wall and fence materials and finishes.

BACKGROUND:

Request:

The applicant, Finisterre Home Owner's Association (HOA), is requesting to raise the height of the existing subdivision wall on nine properties.

History/Background:

The Finisterre subdivision and subdivision wall were approved in 1977. The subdivision wall is located at the property line of the perimeter lots and was originally approved with varying wall heights of 4'6" tall to 6' tall.

In conjunction with the Lincoln Drive Sidewalk Project in 2005, the Town allowed Finisterre to raise the height of the subdivision wall adjoining Lincoln Drive (from 6' tall to 8' tall with a 2' berm on the bottom of the fence). However, only three properties, all connected and all west of the guard house on Lincoln decided to raise the height of their portion of the subdivision wall and they raised it to 6'8". The applicant is now proposing to raise the subdivision wall heights east of the guard house and along Invergordon to a maximum of 6' tall. This will affect nine properties.

General Plan:

The modified wall height is compliant with Sections LU 2.1.3.7 and CC&H 3.1.1.2 of the General Plan. Section LU 2.1.3.7 states that "Where walls and fences are used/necessary, the Town shall require use and effective upkeep of attractive wall and fence materials and finishes (e.g., stone, masonry, wrought iron, vegetation) and wall designs (meandering, see-through)." The modified wall will have a stucco and paint finish and the existing landscaping will be maintained.

Also, Section CC&H 3.1.1.2 states that established neighborhoods shall be protected and that "The Town shall encourage new development and redevelopment, both private and public, to respect and respond to those existing physical characteristics, buildings, streetscapes, open spaces, and urban form that contribute to the overall character and livability of the neighborhood." The increase wall height provides additional privacy and security while maintaining the aesthetics of the existing subdivision wall.

FACTS/DISCUSSION

The rear yard wall height on Lots 86 - 93 will be raised from 4'6" tall to 6' tall (eight properties adjoining Lincoln Drive). Also, the rear yard wall height on Lot 83 will be raised from 4'8" tall to a height of 5'7" tall (adjoining Invergordon Road). The increased wall height will provide additional security and privacy for the affected lots and will be closer to the height of the subdivision wall located west of the Lincoln Drive entrance.

The affected fence walls are located at the property line and the additional block used to raise the height will have a stucco and paint finish to match the existing wall. No new landscaping or landscape lighting is associated with this improvement; however, any landscaping or landscape lighting damaged during construction will be replaced.

ENFORCEMENT:

There are no current zoning violations associated with the subject property.

PUBLIC COMMENT:

Neighbors located within a 1,500' radius of the subject properties were notified of the May 1, 2018 Planning Commission public meeting. Staff received no comments regarding the proposed wall

modification. Another notice will be mailed out prior to the June 14, 2018 Town Council meeting.

PLANNING COMMISSION DISCUSSION

The Planning Commission reviewed the modified subdivision wall request at the April 17, 2018 work session and May 1, 2018 public meeting. By a vote of 7 to 0, the Planning Commission forwarded the application to the Town Council with a recommendation of approval, subject to the following stipulations:

1. The wall improvements shall be in substantial compliance with the following:
 - a. The narrative, prepared by the Finisterre Home Owner's Association (HOA);
 - b. The site plans, prepared by the Finisterre HOA; and
 - c. The exterior wall elevations/details, prepared by the Finisterre HOA.
2. The exterior of the wall must be finished and painted to match the existing wall.
3. Any exterior landscaping destroyed or removed during the construction of the wall improvement must be replaced with a similar plant or similar vegetation.

NEXT STEPS

The Town Council will take action on this application at the June 14, 2018 meeting.
